TF council OK's joint sewer line

TWIN FALLS — Approval of an agreement with the city of Kimberly for sewerage services was voted unanimously Monday night by the Twin Falls City Council.

The action followed a public hearing on the proposed agreement during which no comments were offered.

It was previously approved by the city of Kimberly and provides for the collection of sewage from Kimberly and transporting it through a main trunk line to the Twin Falls system and "proposed" new secondary treatment facility.

The Twin Falls sewage treatment plant will build this year at a cost of just over \$1 million.

In the agreement, Kimberly will pay for and construct the interceptor sewer line from Kimberly to Twin Falls, meeting the Twin Falls trunk line at Madison Street and Addison Avenue. This will be the dividing point between the two systems.

Twin Falls will own the manhole at the connecting point and will furnish treatment of the sewage in return for \$155 per million gallons of sewage

measured at the manhole.

The two will be adjusted annually with Kimberly paying sewer treatment plant capital cost redemption on a basis of \$15.57 per million gallons; trunk sewer capital cost redemption on a basis of \$34.38 per million gallons, and 3.67 percent of the total maintenance and operation costs of the treatment plant and sewers on an annual flow basis.

The agreement may be terminated at any time by mutual agreement of the two cities, or when the sewage flow or suspended solids

characteristics of Kimberly sewage surpasses the equivalent of a 6,000 population.

At that time the agreement would be renegotiated but Kimberly may not convey more sewage under this agreement than would be the equivalent of 6,000 persons. Mayor Von Nebeker, Kimberly, attended the Monday night Twin Falls meeting.

City Manager Jean Milar told the council the \$4 million treatment facility will provide secondary treatment for Kimberly, Twin Falls and the major industries of Twin Falls.

BODIES OF TWO American diplomats, murdered by Palestinian terrorists in Sudanese capital of Khartoum, are returned to US at Andrews Air Force Base, Md., Monday, amid full military honors. Ambassador Glen A. Noel Jr. and Charge d'Affaires George C. Moore will be buried in Arlington National Cemetery Wednesday. (UPI)

Lemhi ranchers' 'fast one' scored

HOWE (UPI) — The roundup of range horses in the Lemhi Mountains capped a situation growing for 20 years, according to Ed Jones, district manager for the Bureau of Land Management.

Jones, Idaho Falls, said the ranchers "were trying to pull a fast one. These are range horses, privately owned horses deliberately put out there without brands so we couldn't identify them so we could trespass them."

He said the herd developed in central Idaho in the past 20 years. We never had wild horses in that area before. The ranchers had been getting grazing land for free.

In the past months the ranchers realized they would have to get the horses off the rangeland or

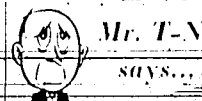

through changing laws the horses could be declared wild and unmanageable.

"The ranchers came in and informed me that they owned the horses and were going to get them. I told them if they owned the horses to get them off there, we don't want them to trespass any longer."

Tracing the history of the range horse problem, Jones said ranchers at one time were given licenses to graze horses year around on BLM property.

"Some of the ranchers, to get by this licensing, decided they would not license them, would not brand the colts, but just turn them out there year round."

(Continued on p. 2)

One of these years, persistence will produce public kindergartens in Idaho.

Details, p. 15

Home amid honors

New tot class bill printing approved

BOISE (UPI) — With four votes to spare, kindergarten proponents mustered enough strength in the House today to force printing of a new bill to provide classes for five-year-olds.

Reps. William Onweiler, R-House, and Patricia McDermott, D-Pocatello, led the brief floor skirmish that overturned a printing committee decision against printing of the bill.

Under House rules it takes 32 votes to force printing of a bill after the printing committee has turned thumbs down on the proposal.

A motion to print this proposal passed, 36-32.

Onweiler, referring to the loss 25-14 last week of another kindergarten proposal, called this measure what some have referred to as "half a loaf." It provides for a \$2 million kindergarten fund, a one-mill equalization levy and a

discretionary 1.5 mill district levy.

Rep. Wayne Loveless, D-Pocatello, chairman of a printing subcommittee which recommended against printing on constitutional grounds, raised several objections.

He said that under the bill the trustees of a district have the discretion of skirting a kindergarten program or of asking the electorate for advice on the question. But he said, the advice if sought "becomes mandatory and thus amounts to intimidation."

There is vague wording in the bill, he said. There even is a serious question of whether kindergarten programs can receive federal funds under the constitution, he said.

Miss McDermott said the attorney general advised her the legislation has no constitutional infirmity. "Members of the printing

committee have a distinct advantage... they have a copy of the bill," Miss McDermott said. "How on earth can we discuss the aspects of this legislation if we don't have a copy of the bill?"

Rep. Lee Barron, R-Corral, the other member of the printing subcommittee, pointed out that since the House beat a Senate-approved kindergarten bill last week he has tried twice without success to get

introduced a bill providing for a referendum on the kindergarten question. "Kindergarten proponents shot him down both times, he said."

Today's floor action averted a possible "slowdown" in the House which was threatened Monday when printing committee members delayed their report until today. The committee stuck by its guns Monday after one member called the threat "blackmail."

Settlement near in Indian clash

WOUNDED KNEE, S.D. (UPI) — Justice Department officials said today things are going, "click, click, click," toward a settlement of the week-long Indian occupation of Wounded Knee.

But other government sources were guarded in their hope for a speedy surrender of the embattled encampment of the 250 Indians who last Tuesday occupied the site of the last stand of American Indians against the U.S. Cavalry.

"We had at least five

telescopic sights of Indians at Wounded Knee carrying M60 rifles," a government man said. "They can wipe out a bunch of FBI men or U.S. Marshals outside Wounded Knee without giving them a chance."

Despite these misgivings, there is consensus among government officials here that the issues now remaining chiefly concerned tribal politics and resentment against the operations of the Bureau of Indian Affairs (BIA) here on the Pine Ridge Reservation.

Haiphong harbor open

WASHINGTON (UPI) — North Vietnamese and Viet Cong released another group of U.S. prisoners of war. It had been held briefly last week when the Communists appeared to be balking at the release of prisoners on schedule.

Rogers told the House Foreign Affairs Committee. "We received the report this morning that some ships are going through. I think the harbor is open."

U.S. minesweeping operations to clear the harbor resumed last weekend after the success.

CSI building funds OK'd

By DAVID ESPO

Times-News writer

BOISE — Partial funding for a \$2.1 million vocational education building for the College of Southern Idaho was approved Monday by the Joint Finance Appropriations Committee.

The committee approved \$950,000 for the CSI building as part of \$572 million in recommended construction from the permanent building fund. The committee established education and vocational education as top priorities for the building fund.

The CSI building had been first requested several years ago but had stalled in recent years, largely because higher priority was given for the new state penitentiary.

The 1971 session of the legislature did approve \$1,000 for planning studies for the proposed structure, and CSI president James L. Taylor

told the joint committee earlier this session that the blueprints were prepared.

According to Joint Committee co-chairman Richard S. High, R-Twin Falls, the building would be funded over a two-year period.

"Once you've got \$950,000, you're in," he said.

CSI trustee chairman John Hepworth said today the building, if approved finally, "would certainly go a long way toward the end of bringing vocational programs on campus. It is certainly something we would like to do."

"I think it's just great. I'm pleased they have taken that action," he said.

According to O. H. Bradley, director of the CSI vocational school, the building, if given final approval, would "eliminate these four or five buildings located around town... hopefully it will bring them on campus."

Bradley said the programs affected would be

the heavy shop programs, including auto and diesel mechanics, welding and auto body.

According to Bradley, "the big difference is sometimes leased facilities dictate curricula curricula should dictate facilities."

He said some of the expected gains by moving on campus would be improved communications and "better student feelings."

Included in the recommendations by the committee are \$1.8 million for a first phase of a proposed science education building at Boise State College, \$300,000 for the University of Idaho Law School and \$300,000 for additions at the Eastern Idaho Vocational School in Idaho Falls as well as \$160,000 for a welding shop at Idaho State University.

The committee approved increasing the priorities for education construction by de-emphasizing capital mall projects, including

remodeling the old St. Alphonsus Hospital and expanding the mall's heating plant.

The recommendations of the Permanent Building Fund Advisory Council had included \$500,000 for the remodeling of the old hospital and an additional \$1.28 million for construction of additional central utility plant facilities.

But Sen. High told the committee that the council had decided that renovation of the old hospital was uneconomical compared to building a new office building and therefore the \$1.6 million tied directly to that facility was freed.

He suggested vocational education as a "critical area" of need in the state, and referred to statements by Roy Irons, state director of vocational education, that facilities were short.

(Continued on p. 7)

Japan imports US missile system

WASHINGTON (UPI) — The AFL-CIO said today it had learned that an American firm, with the government's approval, was "exporting" to Japan a missile system that easily could be modified into an offensive intercontinental missile.

A spokesman for the labor federation identified the firm as the McDonald-Douglas Corp. and the missile system as the Thor-Delta rocket, used up to now for launching satellites.

"Japanese engineers are currently at Vandenberg Air Force Base in California being trained in the development and use of the system," Andrew J. Bleimiller, chief AFL-CIO lobbyist, said in testimony prepared for the Senate subcommittee on international trade.

"A prototype rocket is being built in nearby Santa Monica," Bleimiller said, "and it is expected that upon completion, the system will be set up on an island west of Japan."

A Thor-Delta system is capable of carrying several hundred-pound objects into space orbit or, with little modification, can carry a nuclear warhead in the 1,500 to 5,000 mile range, clearly a potentially offensive weapon, he said.

The former Wisconsin congressman said that after the Japanese had failed in efforts to develop their own missile system "initiated for the Japanese," the McDonald-Douglas deal was developed at a 1971 meeting in Tokyo between U. S. cabinet officers and their Japanese counterparts.

"That meeting in effect ratified the negotiations that had been underway for the missile system sale," he said. "Part of the deal was an agreement by Japan to permit investment by U. S. multinational firms in its automotive industry."

Bleimiller did not reveal where his information came from but indicated that the Japanese would copy the U.S. developed prototype in order to build later units and models on their own. The Thor-Delta rocket previously had also been used to launch weather and other satellites for Canada, France, and jointly for seven European nations.

He said the Thor-Delta rocket system was developed with the tax dollars of Americans, but that the sale to Japan apparently was for "exclusive profit of McDonald-Douglas, while the nation loses a basic resource."

BLM investigates range horse case

(Continued from p. 1)

Bill Matthews, BLM state director, predicted court action would be necessary to settle the dispute. A BLM team has gone to the area to determine what took place.

"At this point we are getting a lot of conflicting information and it is difficult to sort them out and get the facts," Matthews said.

"The question at this point is a legal question," he said, "and it probably will take a court decision to resolve the matter."

The legal question is whether the horses are owned or not — and if wild.

The Humane Society conducted an investigation of its own into the death of more than seven horses during the roundup.

Frantz Dantzer, national director of the society, Monday said he plans to file charges of animal cruelty in Idaho court against the ranchers involved in the roundup.

"From the humane standpoint, we are certainly concerned about that but it concerns statutes not under our jurisdiction," Matthews said.

He expects the BLM investigation to be completed by Wednesday or Thursday.

Matthews said one of the reasons the horses were rounded up at this time of year was "the range has been severely depleted and from a humane standpoint it was desirable to get them on feed."

The ranchers also felt it would be easier to gather them because they were ranging down near the ranches and they expected they would be able to gather them relatively easily.

He said information that the ranchers had used helicopters and snowmobiles in the roundup came to him when it was over.

"It is my understanding they were used primarily the first day but after that the horses moved into the rough country and that kind of equipment wasn't any use to the people conducting the gathering operation."

Combination safe

WEST BLOOMFIELD, N.Y. (UPI) — There were two old safes at the West Bloomfield Town Hall. Since no one had the combination to the locks, a specialist had to be called in to open them.

The first safe contained old town records. The second contained only a tin box, inside the tin box was the combination to the locked safe.

Pearl Buck dies quietly

DANBY, Vt. (UPI) — Novelist Pearl S. Buck, whose portrayals of Chinese peasant life won her Pulitzer and Nobel prizes, died at her home here today. She was 80.

Mrs. Buck, daughter of Presbyterian missionaries who worked in China, was hospitalized several times last summer and on Sept. 29 underwent surgery for removal of her gall bladder.

"She passed away quietly," said her personal secretary, Miss Beverly Drake. She said some members of Mrs. Buck's family were at her bedside when she died.

Funeral arrangements were incomplete but services will be private in accordance with her wishes.

Only recently Mrs. Buck was denied permission to reenter China. She had applied to the embassy in the People's Republic of China which claimed her works took "an attitude of distortion, spread and vilification toward the people of China and their leaders."

"She was born in Hillsboro, W. Va.," Mrs. Buck published 29 novels, three collections of short stories and an autobiography, "For Spacious Skies," in 1966. Aides reported she was working on four other novels at the time of her death.

Mrs. Buck won the Pulitzer Prize in 1931 for her second novel, "The Good Earth," and seven years later she became the first American woman to win the Nobel Prize for literature.

The Nobel Prize was granted for no particular work, but the citation read: "For rich and genuine epic portrayals of Chinese peasant life, and for masterpieces of biography."

Mrs. Buck, who reportedly gave more than \$7 million to charities, had resided at Danby since the late 1960s.

She was born Pearl Comfort Sydenstricker on June 26, 1892. She spent her childhood in China and learned to speak Chinese before English. In her own words, Mrs. Buck "grew up much alone" in China and learned to live in the Chinese style with their folklore and customs.

She returned to the United States at the age of 17 to enter Randolph-Macon College. After college she went back to China, and two years later married a Presbyterian missionary, John Lossing Buck, whom she divorced in 1936 for incompatibility.

Mrs. Buck aided her husband in his work among the Chinese and bore two of his children. She taught in Chinese universities and lived the life of a missionary.

She began her career as a novelist with the book "East Wind, West Wind," and in 1930 wrote "The Good Earth." It was published the following year.

Obituaries

G. Sobotka
BUHL — George Sobotka, 71, Buhl, died Monday evening at Magic Valley Memorial Hospital of a long illness.

He was born June 9, 1901, at Inman, Neb. He attended schools at Inman and married Nellie Conrad Oct. 15, 1925. She died July 13, 1947.

Mr. Sobotka moved to Buhl in 1949 from Nebraska where he had worked for the Nebraska Highway Department.

He married Miriam Ruth Runyan at Elko, Nev., April 9, 1959.

He was employed by the city of Buhl for many years.

He was a member of the Church of Immaculate Conception, Buhl, and a former member of the Knights of Columbus.

He is survived by his wife, Buhl; one son, Robert Sobotka, Jerome; six daughters, Mrs. Calmer (Catherine) Halverson, Herlong, Calif.; Mrs. Elvin (Henrietta) Larson, Portland, Ore.; Mrs. T. C. (Georgella) Hartwell, Twin Falls; Mrs. William (Elizabeth) Ballard, and Mrs. Frank (Sheila) Ingustawski, both Caldwell; and Jeannie Sobotka, Buhl.

Three brothers, John, Lewis and James Sobotka, all Inman; two sisters, Mrs. William (Jeannette) Longview, Wash., and Mrs. Clifford (Meyers) Beatrice, Neb., 23 grandchildren and one great-grandchild.

Rosary will be recited at 7:30 p.m. Wednesday at the Buhl Catholic Church with Requiem Mass at 11 a.m. Thursday at the church with Fr. Malachy McNeill as celebrant.

Burial in O'Neill, Neb.

Friends may call at the Hopkins-Buhl Funeral Chapel from 11 a.m. to 6 p.m. Wednesday.

S. Halverson
RUPERT — Mrs. Sybil Halverson, 72, Rupert, died Sunday at Quartzsite, Ariz.

Funeral services are pending at the Post Falls, Idaho, Presbyterian Church under direction of the Yates Mortuary of Coeur d'Alene.

Funeral Services
PAUL — A Mass of the Angels was said today for Raul Gonzales, 3-month-old son of Mr. and Mrs. Perfecto Gonzales, Paul, at St. Nicholas Catholic Church, Rupert, by Fr. Ruben Garcia, Burley.

TWIN FALLS — Services for Mrs. Sarah Van Houten will be conducted at 10:30 a.m. Wednesday at the Kimberly Methodist Church, Final rites in the Twin Falls Cemetery.

BUHL — Services for Set William Anderson will be at 1 p.m. Thursday at Payne Memorial Chapel. Final rites in Gen. Memorial Gardens.

Ohio buys color books

COLUMBUS, Ohio (UPI) — The state of Ohio is buying 600,000 coloring books.

The state Controlling Board voted Monday to spend \$13,800 for the books, depicting good highway safety practices. State officials intend to distribute them to first and second graders throughout Ohio.

The theory behind the production of such

Racial fights plague schools

CHARLOTTE, N.C. (UPI) — Fighting between blacks and whites broke out at four Charlotte-Mecklenburg county schools this morning. One other school was closed, and still another operated on a limited schedule because of racial tensions that have plagued area schools for a week.

Both city and county police units rushed to Harringer High School this morning in the last of four reported incidents.

Earlier, county police had reported making several arrests at Quail Hollow Junior High, just outside the Charlotte city limits.

School spokesman Henry Bostic said fighting broke out this morning at Quail Hollow, Smith Junior High School and Harding High School, all in different parts of the county.

City police were summoned to Harringer but did not make any arrests, according to Bostic. The disturbance at Smith was quelled by school staff members.

Bostic said members of a special administration task force were sent to all the schools experiencing trouble. Top administration officials were meeting this morning trying to find ways to ease tensions.

School officials today cancelled classes at South Mecklenburg high as a precautionary measure because of tensions involving a school walkout Monday.

Assistant School Superintendent Chris Folk announced the class suspension for South Mecklenburg, saying plans for the remainder of the week would be worked out later in the day.

Eight students received minor injuries in fights among blacks and whites Monday. About 150 students, most of them blacks, refused to attend classes Monday and staged a brief march near the school.

Whites were reportedly trying to organize a boycott because they felt they were being treated unfairly by school personnel — that they were disciplined more severely than black students who committed similar offenses.

West Mecklenburg High was still operating on a limited attendance schedule today because of racial incidents last week.

Aviation report said erroneous

TWIN FALLS — A letter from Idaho director of aeronautics, Darryl V. Manning to Idaho pilots objected to proposed tax of 100 percent for general aviation needed to meet FAA costs.

Manning's letter said the FAA costs, if carried by general aviation, would involve one or a combination of the following cost increases:

- A flat \$6 cents per gallon federal tax on aviation fuel or annual aircraft registration fee of \$2,000 for every aircraft, or
- annual aircraft registration fees of \$1,500 for a single engine craft, \$7,600 for multi-engine craft and \$15,000 for turbine-powered aircraft; or
- landing fees of \$2.50 for single engine craft, \$12.50 for multi-engine craft, and \$25 for turbine aircraft. According to Manning, "If you could only full stop or flight plan operations, this fee would double."

or flight-plan fees of \$54 for each plane or \$88 for only IFR flight plans.

In the Times-News story covering Manning's letter, the word "or" was left out, possibly leading readers to think erroneously that all the above were proposed for simultaneous enactment.

Tax credit proposed

WASHINGTON (UPI) — Because an income tax deduction is worth more to a wealthy taxpayer than to one with less income, Congress was urged today to replace deductions with tax credits. Tax credits have the same dollar and cents value for everyone.

The proposal came in testimony before the House Ways and Means Committee's hearing into tax reform from Jerry Wurf, president of the 600,000-member American Federation of State, County and Municipal Employees, AFL-CIO.

Under the present income tax system, the value of a deduction or exemption increases as income increases.

Thus, the \$750 personal exemption is worth 20 per cent of \$750 or \$150 to the \$10,000-a-year taxpayer who is in the 20 per cent tax bracket. But it is worth 30 per cent of \$750, or \$225, to the taxpayer in the 30 per cent bracket and 50 per cent of \$750 or \$375 to the taxpayer in the 50 per cent bracket.

That's unfair, Wurf argued. He proposed that all taxpayers be permitted to take a tax credit of \$150 for each exemption instead of a \$750 deduction.

TF girl injured by car

TWIN FALLS — A young Twin Falls girl was injured slightly Monday when she apparently rode her bike into the path of an oncoming car.

According to police accident reports, Annette Harrison, 7, received cuts and bruises when she was struck by a car driven by Nola Loven Smith, 50, Twin Falls, about 3:30 p.m. at the intersection of Elm Street and Heyburn Avenue.

Police reported witnesses at the scene said the Harrison girl ran a stop sign on her bike and rode into the path of the Smith car.

The girl was treated at Twin Falls Clinic.

City delays action on mobile home services

TWIN FALLS — City Council members delayed action Monday night on the request for sewer and water services to a proposed mobile home court, pending a city-county plan for zoning around the city.

Arle and Robert C. White, owners of 20 acres of property on Eastland Drive, just south of the new K-Mart market, properly asked the city for approval of water and sewer connections to develop a mobile home court. Robert White said they would then ask for annexation.

Mayor John Christofferson said he would like to see the matter delayed until the present effort of the city and county to establish a sphere of influence around the city for compatible zoning with the city and county.

He told the Whites the city has inherited bad zoning in the past by annexing areas. He said one mobile home park was taken into the city about two years ago which began as an attractive, well landscaped unit but larger trailers and the desire for the dollar crowded the court until it is now an undesirable feature

of its neighborhood. Several other council members said they would rather see first class residential development in the area as it adjoins low density residential zoning of the city.

Three residents of the area including Police Chief Frank Barnett, Harvey Cook and Benjamin Dillinger, voiced objections to the proposed mobile home court.

In other business the council approved an encroachment by the Idaho First National Bank on Blue Lakes Boulevard North. The bank building, now under construction, includes a retaining wall 42 feet into the right of way. The council agreed to the encroachment which will be decorated by plantings and is to be removed at anytime the highway widening project requires the right of way.

Approval of several events including a farm machine show on the mall and closing for several other merchandizing events was voted. The council denied a request from The Paris Co. for parking automobiles on the sidewalk.

The council also established a

policy against promotions for any one merchant which would require sidewalk space for vehicles.

It was suggested the firm park the display vehicles in metered spaces in front of the store and put money in the meters.

The council voted to install meters in 20-minute parking spaces in front of the banks and department stores on Main Avenue. The meters will be 10 minute machines.

A call for bids for crash, fire and rescue equipment at the city-county airport was approved. Bids will be opened March 30. City Manager Jean Miller said the equipment including one light truck and one large truck are required by the Federal Aviation Agency for all air carrier airports. There is some indication the requirements will be modified, he said, and suggested bids include an alternate unit for the big engine.

Public hearing for the proposed local improvement District 88, which will cover the 1973 street improvement program in Twin Falls, will be held March 20 at 7 p.m. in the

city hall. The city approved a resolution of intention to create the district which totals \$263,716 in expenditures, with \$187,470.91 from the city funds and \$76,239 to be paid by property owners as their share in improvements such as curbs and gutters adjoining their property.

Each property owner involved will receive a notification in the mail about next Monday all of the streets and properties involved. Council members urged residents to study the information carefully and to attend the public hearing if they have objections.

In other action the council placed an ordinance modifying the animal ordinance on first reading, amended swimming pool rules, as previously established, placed an ordinance on third and final reading to transfer health district duties to a city sanitation and health officer, approved an overnight parking fee of \$2 per vehicle at Shoshone Falls Park and appointed members to a golf commission. Those named include Al Nelson, Marshall Slavin, Steve Carter and Vinnie Standley.

TF blood donors miss quota by 17

TWIN FALLS — In Monday's Red Cross blood drawing at the American Legion Hall, 133 pints were given, 17 short of the 150 pint quota.

The Twin Falls Jaycees won the plaque offered to the Twin Falls Service Club having the most members donate blood with 40. Rotary Club was second with six and Exchange Club third with five. The plaque will be kept by the club until the next drawing when a new contest will begin.

(Related story, p. 16)

Special pins were awarded Robert Sags, nine gallons; Ray Willecke, five gallons, and Donald Wilkerson, one gallon.

Future of CAA meeting topic

TWIN FALLS — Methods of our system, or try to maintain keeping alive. Community separate programs under Action Agency programs such as individual funding which is as senior citizens and family what I intend to work toward planning will be discussed. Russell said he received a letter Monday from the Executive board members of the Office of Howard Phillips, and the planning committee of acting director OEO, the South Central Idaho recommending steps for Community Action Agency will applying to various agencies for make reports to the board of funding of the Senior Citizens directors and will submit Agency, Family Planning and recommendations. Robert other programs designed to help community low income persons and others.

The meeting will be at 8 p.m. These recommendations will be discussed in the board today in the CAA offices in Twin Falls. Russell said.

Russell said in view of the planned abolishment of the Office of Economic Opportunity programs including CAA, individual funding for specific programs now under CAA. He said, "We could either take immediate steps to abolish

Gas order review eyed

BOISE (UPI) — Natural gas suppliers in the Northwest might ask for a review of a U.S. Supreme Court ruling that El Paso Natural Gas must relinquish the former Pacific Northwest Pipeline Co.

The court ruling handed down Monday said El Paso must relinquish the former company which is acquired in 1959, to an

independent purchaser, the APCO Group.

Intermountain Gas Company President Dean Grimm said Monday, "If that decision stands we will have a new gas supplier. That could cost us between \$110,000 and \$1,700,000 a year. We have not ruled out the possibility of another appeal."

He said Washington-Natural Gas, Washington Water Power, Cascade Natural Gas and Intermountain fought APCO's bid for the pipeline.

The ruling comes after 15

years of litigation and affirmed a previous court divestiture order in 1994 that was designed to restore competition among California natural gas suppliers.

Grimm added, "If the ruling

stands, gas users in the Northwest, including Idaho, can expect an increase in prices. The amount would depend on negotiations with the company taking over the supply duties of El Paso."

TF oil firm given contract

TWIN FALLS — Kendrick Oil Co. was awarded the bid for 8,000 gallons of gasoline for the Twin Falls County Weed Bureau Monday by the county commissioners.

Kendrick and the Clements Oil Co., both Twin Falls, were the only bidders. Kendrick's low bid for 4,000 gallons each of premium and regular gasoline was accepted. The firm bid 24.3 cents per gallon on regular and 27.3 cents on premium.

Commissioners discussed the possibility of installing gasoline pumps for the 10 county sheriff's cars near the courthouse with the savings over retail prices to be used to pay a pump attendant.

It was estimated about \$130 per month could be saved, but commissioners said it would probably require at least that amount to provide salary for a retired Social Security beneficiary or other attendant.

Door unit theft told

TWIN FALLS — A Twin Falls woman reported to police Monday that an automatic garage door opening device was stolen from her car.

Barbara Craven told police the device was stolen between 7 and 10 p.m. Monday while her car was parked on Maurice Street. She said broken pieces of part of the unit were lying next to her car. The car had been locked, she said.

The garage door opener was valued at \$100.

Terms hit

BOISE (UPI) — Legislation is being prepared by the House Judiciary Committee to prevent the State Board of Pardons from commuting sentences so criminals can be released from prison sooner.

At present, Idaho law requires a felon to serve at least a third of his term before he is eligible for parole.

Who's there?

You'd KNOW with Nightguard lighting

NIGHT/TIME HOURS
Idaho Power system load on a winter night (Jan. 25, 1973)

In addition to providing a valuable service, Nightguard lighting helps fill the valley in Idaho Power's nighttime load curve. This results in more efficient use of facilities to the benefit of all electric customers.

For as little as \$9.60 a month, Reddy-Kilowatt will light up your yard, alley, drive, or other dark area every night from dusk to dawn. You don't have to see in the dark to know what's going on out there. Nightguard protects against accidents, discourages prowlers and troublemakers.

For early installation, call your local Idaho Power office. If you prefer direct purchase, see your electrical contractor.

The Presidency

The institution of the presidency says historian Barbara Tuchman, has grown too big for the country's good.

Expansion of presidential powers in the 20th century has dangerously altered the careful tripartite balance of governing powers established by the Constitution, she contends.

The President is subject to no advisers who hold office independently of him. Cabinet secretaries and agency chiefs can be hired and fired at whim. For its part, Congress has failed to perform its role as safeguard against the natural tendency of an executive to become dictatorial, or even to exercise its own rights through the power of the purse.

She recommends abolishing the cabinet government with a directorate of six men, nominated as a slate by each party and elected as a slate for a six-year term with a rotating chairman, as in the Swiss system.

She admits, however, that there is a drawback in that cabinet government "could not satisfy the American craving for a father image or hero or superstar."

Thus the only solution, she says, is either to install a dynastic family in the White House for ceremonial purposes, or to focus the craving entirely on the entertainment world. "Or else to grow up."

In other words, the fault, dear Americans, lies not so much in our form of government as in ourselves.

Still, for almost 200 years we have been muddling along, through more than one period of presidential "usurpation" of power as well as those times when Congress mismanaged the country under a weak president, all the while maintaining a degree of human liberty not strikingly inferior to that enjoyed by the Swiss or the Germans or the British or the Australians.

Not bad for children, Miss Tuchman.

The Confirming

The Senate finally got around Wednesday to confirming the appointment of Keith Higginson as the administrator of the Department of Water Administration.

It has been guilty of bad manners in holding the appointment for as long as it has.

It is not coincidence that the confirmation was held up until the revised stream channel alteration act had passed the Senate.

If the legislature is concerned with the effect of the 1971 law, it should rewrite it, as it has done.

But to withhold confirmation of Higginson because he has been enforcing the law as it was written and construed by the attorney general's office is tantamount to threatening death to the messenger who bears bad news.

Higginson has been honest with

the legislature. He told one of its committees earlier in the session he didn't understand whether the intent of the 1971 stream channel alteration act was to prevent or prohibit the alteration of channels. He told the legislators he was doing what was required of him under the law and by a ruling by the attorney general that lakes were covered in the law.

It wasn't Higginson who wrote the law. It wasn't Higginson who said there were 60 days available for review by his department of all permit applications. It wasn't Higginson who said that other departments were to be asked about the permits.

Higginson did what he was told by the legislature. In return, the same lawmakers have been nibbling away at his ankles for eight weeks.

MR. SPECTATOR

So Here's March

February has its groundhog legend and March has one a great deal like it. Only the character playing the role of weather forecaster in March is a lion, as befits a month so named.

"If March comes in like a lion, it will go out like a lamb," a hoary saying goes. Perhaps this is so. Most persons have trouble remembering, at the end of the month, just how it did begin. March has 31 days and seems even longer because it comes after February.

March is the month that started off the new year, the way the Romans had things arranged, and the English didn't give that honor to January until the middle of the eighteenth century.

There is more mythology associated with March than its name, which is connected with that of the god of war. It is alleged that the last three days of the month are "borrowed" from April and that the first three are "blind" because they are unlucky. Superstitious farmers formerly refrained from planting crops on the first three days because of this belief, and it could be that some still do.

St. Patrick's Day comes on the seventeenth, as every son of the Old Sod knows, and that's the one anniversary that gets much attention this month. March 4 was quite a day in the U.S. every four years, before inauguration of presidents was switched to Jan. 20.

Otherwise March is a long stretch of days much like each other. But the vernal equinox comes in March, followed by

spring, and that is what makes the month outstanding.

MACHINES THAT HEAR

An electronic car designed to help machines "relate to man in more exotic ways" has been invented by the head of the University of New Mexico's department of electrical engineering and computer sciences. It has got to be the ultimate in automated sophistry.

"Dr. Victor Bolie sees his electronic car as the device which will put machines back in their places. 'Machines are making slaves of us,' Bolie agrees. 'It should be the other way around. We have to make the machine more intelligent rather than just having it capable of computing mathematics.'"

The way to control machines is to make them more intelligent. An interesting theory. Machines which can be voice controlled to start, stop and perform various functions on command naturally would give the operator a greater sense of power.

Until the day comes when in exasperation he tells his balky "partner" to go jump in the lake or some other suitable place.

TODAY'S CHUCKLE

This sign displayed in a bank would have amazed our grandfathers: "Remember, part of what you earn belongs to you."

And as a thought for someday, Mr. Spectator might point out that here's the secret of a reducing diet: never eat while your wife is talking.

The Abrasive Style Of Dismantling

WASHINGTON—The intentionally abrasive style of Howard Phillips in dismantling the Office of Economic Opportunity (OEO) — a style now being forcibly foisted by an angry White House — can be traced directly to presidential major domo H. R. (Bob) Haldeman.

Until Jan. 20, Phillips had been approaching his new duties as acting director of OEO with sobriety and moderation. But at the inaugural worship service in the White House, he had a brief conversation with Haldeman that profoundly

affected his performance at OEO. Both Haldeman and Phillips deny anything of substance was said. But soon afterwards, Phillips told friends with some delight that Haldeman urged him to "speak to them" at the anti-poverty agency. According to Phillips, Haldeman told him not to worry about criticism because the White House was behind him all the way. To intimates, Phillips interpreted this as a White House license empowering him to crack down hard with a sledgehammer, not the subtle scalpel.

And crack down he did, with interviews, leaked memoranda and fiery congressional testimony which turned Phillips into a national figure overnight. He had extended his writ — abolition of OEO, justifiable on administrative grounds — into an ideological holy war that was losing allies for the President. As a result, the White House this week quietly muzzled Phillips and attempted to remodel him into a less zealous and combative posture.

The story of how Phillips at OEO shows that the Nixon administration has not entirely

abandoned its first term confusions. More seriously, it also reveals a dangerous undercurrent in the executive self-confidence of the second term, a strain of thought at the White House, shared by Haldeman and the President himself, that is not content with mere administrative reform but insists on ideological combat which could both endanger those reforms and damage the President.

Nothing better demonstrated first-term confusion than Mr. Nixon's ambivalence toward anti-poverty machinery inherited from the Johnson administration. Although the President's instincts were to eliminate the whole business, he moved cautiously as a minority President and kept the OEO going.

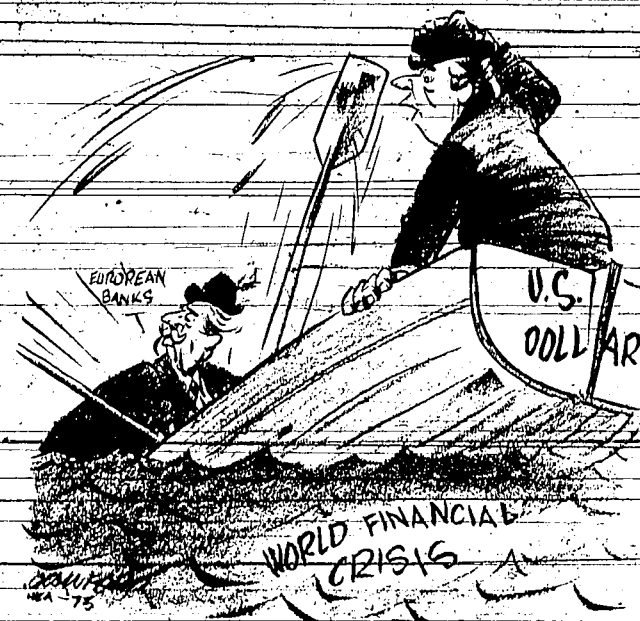

But even relatively liberal Nixon aides came to believe OEO was an unmanageable mess. Their view was buttressed by a 1970 report by the Ash Commission on government organization, still secret, recommending that OEO be

abolished and its functions spread among other departments. The arguments were strictly administrative, eschewing ideological debate.

That, surprisingly, was Phillips' private view late last year after being tapped as OEO director. Although his roots are in the right-wing Young Americans for Freedom (YAF) Phillips has contacts in the party's left and helped manage liberal Republican Sen. Richard Schweiker's 1968 campaign in Pennsylvania. John Price, a former White House aide active in the liberal Republican Ripon Society, endorsed Phillips for the OEO post to presidential aides.

Late last year Phillips founded his liberal Republican Friends of an Open Society and promised that many of his policies at OEO would follow Ripon Society guidelines. There was no suggestion of an ideological commitment against the government's responsibility for dealing with poverty.

"Row, Damit, Row!"

GEORGE C. THOSTESON, M.D.

Fertility Pills

Dear Dr. Thosteson: I took fertility pills for a while trying to get pregnant. Just what do the pills consist of and what do they do to the body to increase fertility? They didn't work for me. I didn't get pregnant.

Mrs. D. M.
The "fertility pill" that you mentioned in your letter stimulates the pituitary gland to produce more hormones. Since the pituitary is the "control gland" for other glands in the body, it stimulates other hormone-producing glands. In this case, the medication is designed to stimulate more production of a hormone that is involved in causing ovulation. Such medication proves very effective in some cases, not in others. Why? Because there are causes other than faulty ovulation that can prevent pregnancy.

For one example, has your husband been checked? In one third of more of infertility problems, the fault rests with the husband. The sperm is inactive, or, in small supply.

Indeed, it makes sense to check the husband first, before going into the more complicated techniques of studying the wife. Or if, for example, the Fallopian tubes are blocked, the ova, or eggs, cannot get through to be fertilized. In such instances, stimulating ovulation can't solve the difficulty.

For yet another possibility, some women can develop an immunity to the husband's sperm. In such a case, there is nothing wrong with either husband or wife — except the sperm is rejected.

Such immunity subsides if the wife is not exposed to the sperm for a substantial time. Prolonged abstinence is a way of meeting this problem, but it isn't a very popular method. More practical is the use of condoms, so that, for the necessary lapse of time, the sperm does not actually come in contact with the wife.

Dear Dr. Thosteson: In my teen years I had a wart on my finger and was told that

applying vinegar frequently would make it disappear. I tried it, and it was successful. For several years I have had a brownish scablike growth on my forehead about the size of a little finger print. Would you advise using vinegar? My age is 44. J.C.W.

Scores of harmless home remedies have seemed to work with warts (they work if the wart is ready to disappear anyway). But a "scablike growth" is NOT a wart. I must definitely do NOT advise you to put vinegar on it, or anything else.

I DO advise you to have a doctor examine it. If it is a potentially dangerous growth, have him remove it.

Dear Dr. Thosteson: Some while ago, I read in your column that there was a vaccine for mumps. I am 44 years old and never had the mumps. If I understand correctly, you can take this vaccine and never have the mumps. I inquired about this vaccine at a clinic and the informed me they had never heard of any such vaccine for mumps. I am very interested in this vaccine since I have a small daughter. — Mrs. J. L. S.

I find it hard to believe that in this day of high-speed communication that there is any clinic in the country that would not have information about mumps vaccine.

Perhaps you misunderstood and they were telling you only that they had none available. Anyway, there is such a vaccine which is becoming more and more widely used. It can be used at any age.

Note to "Full of Crabs": I've discussed crabs a number of times in recent months and don't want to subject other readers to going all over it again.

Obviously your gentleman friend's counsel that "alcohol will kill them" isn't so. It hasn't worked for you. Now suppose you go to your doctor and get a prescription that WILL work.

Times-News Public Forum

Blame Is Not TV

Editor, Times-News: I am writing this in response to a letter authored by Mrs. Reed A. Walker and published February 11. First, some thoughts not relating directly to Mrs. Walker's letter.

I would imagine that all through the ages there have been parents who will not accept their responsibility to take care of their own children. In this day and age these same type of irresponsible parents are making a loud cry for institutions to take care of their children for them. In the age of television, mothers have an additional institution on to which they can push their kids and thus abdicate the responsibility of taking care of the children themselves.

The mothers just push the children in front of the television for the remainder of the day. That way, there is no need to bother with the chore of family life, family activities, conversation and etc. Then when a generation of uncared for neglected kids grow up and turn to drugs because it gives them a thrill, the mother can't understand where she went wrong. Well, I'll tell you where she went wrong. She let the television raise her kids when she should have done it herself. Then when she sees that the television was a poor substitute for a mother, she blames the TV people instead of herself.

Now, as a specific critique of Mrs. Walker's letter I want to make the following points: Mrs. Walker says: "That's just terrific isn't it Mr. Nixon; you send your teenage son or daughter to the market for a loaf of bread and here are all those good pills they have seen since babyhood on television."

My reply: What has Mr. Nixon got to do with television other than the appearance that he may be organizing a push for a government take-over of all broadcasting stations so that they will not be able to air anything that will be embarrassing to him. Yes, quite so. But Mr. Nixon has become the biggest drug pusher in America by virtue of his love affair with Red China and his attempt to cover up evidence that Communist China is the

major exporter of illegal drugs. But since free enterprise is still in effect at this moment, Mr. Nixon has nothing to do with TV, other than his constant harassment of same which is threatening to destroy the entire industry.

You say "a boy cannot even buy glue unless accompanied by his parent." I am sorry Mrs. Walker but I cannot think of one TV commercial that EVER suggested that boys can get thrills out of sniffing glue. Give the kids a little credit. They thought that one up by themselves.

You say "We have 9 million alcoholics in the United States today. A DISASTE THAT CONTINUES TO GROW." And in the same paragraph you state "TELEVISION IS NOT ALLOWED TO ADVERTISE HARD LIQUOR." Well, there is your refutation for your entire letter right there, Mrs. Walker. Alcoholism continues to grow, but television never advertised hard liquor! By the same reasoning you use I suppose it would be equally true to say that if television quit advertising over the counter drugs with drug addiction would continue to grow. That being the case, what is the point of destroying television's economic base?

You see, Mrs. Walker, somebody already got cigarette advertising off TV, now you are working on the over the counter remedies, somebody else is working on toys, and pretty soon there will be no advertising left. Every television station in the country will go dark. The government will take them over and you will be privileged to

work on every channel, announcing the next selection of stirring martial music followed by a reading of several thoughts of Nixon.

Oh, wrong again, Mrs. Walker! You state that "Television is not allowed to advertise hard liquor!" There is no law against advertising hard liquor on television, or anything else for that matter, except cigarettes (and that is constitutionally questionable).

Television station managers do not accept hard liquor ad-

vertising of their own volition. As people like you continue to dry up sources of revenue I expect to see the hard liquor advertisements make their appearance. (The government owned stations in Europe DO accept hard liquor ads.)

"Television is not allowed to advertise cigarettes." The law that makes this statement true is pure and unadulterated discrimination. Radio and TV are not allowed to advertise cigarettes, but magazines, newspapers and billboards and everybody else IS allowed to advertise cigarettes. So what the cigarette companies did was take their money out of television (resulting in an almost immediate deterioration of service) and put that money into other forms of advertising. And believe me, Mrs. Walker, all forms of advertising are effective.

The Times News can sell just as many cigarettes as can "MVT." The fact is cigarette consumption went up following the TV ban and has continued to increase. The law against advertising cigarettes on TV discriminates against the broadcaster. If cigarettes are harmful to your health why does your hypocritical government continue to subsidize tobacco farmers here and cigarette advertising in foreign countries? Why are cigarettes not outlawed as is marijuana?

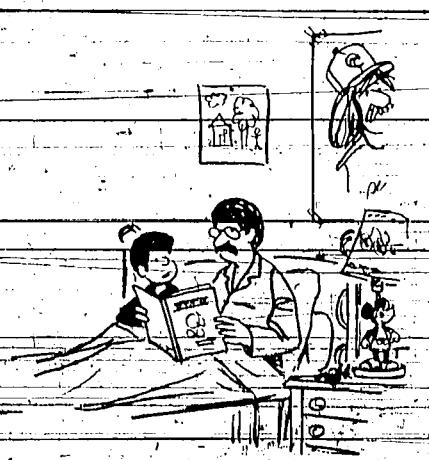

Why is not all advertising of cigarettes banned? Why only TV?

Well, I could further pick your letter to pieces, but I am running too long already. I just want to conclude by replying to your assertion that advertising insults your intelligence by saying people who cannot see the obvious solution and want on about something else insult my intelligence. If you do not trust TV to raise your kids, then turn the thing off, get it out of the house if you have to. You will be surprised at the number of "wholesome" things you can do with the extra time as a family. But you had better hurry. Most people's kids grow up before the parents even take time to introduce themselves.

— M. P. Pierce

Sun Valley

BERRY'S WORLD

"Why didn't Haniel and Gertie leave a trail in the forest with some non-biodegradable substance?"

Gooding schools reply on student rights guide

Editor's Note: The following commentary was issued by Gooding School Supl. James V. Muscat in reference to a booklet of recommended guidelines on student rights and responsibilities issued by the State Board of Education. The Gooding School Board rejected the booklet and returned it to the state board.

In reference to "Recommended Guidelines for student rights and responsibilities" the booklet title makes no reference to assumptions. The Preamble is nothing but assumptions.

Section IV, Extra-curricular activities, item b, says "It is further suggested that grades should not be a factor in determining eligibility for participation in extra-curricular activities."

This is in direct violation with the 1972 Constitution and by laws of the Idaho High School Activities Association, Article VIII, Section 1. "Each contestant must have received throughout the last preceding semester of school passing grades in each of three studies requiring a minimum of fifteen regular recitations per week."

should not be used as a disciplinary measure. The student's record is not which follows him through life; therefore, grade cuts constitute a permanent punishment from which the student cannot recover.

The term "disciplinary measure" is not identified. Look at this situation: If a teacher gives an assignment, due on a certain date, and the student does not get the assignment in on time and the teacher cuts the grade. You be the judge.

According to the Times-News, 3-4-73, "Engelking stressed that the publication was intended as a guideline for the assistance of local school districts in setting local school policy." Yet, there are 25,000 copies being printed. If they are only guidelines, how many school districts are there in the State of Idaho?

Old dates win

BOISE (UPI) — Employing a seldom-used parliamentary maneuver, the House shut off debate Monday and approved 34-32 a bill to restore traditional dates for observing three major holidays.

Last Friday, the House approved the same measure 37-28 and then reconsidered the bill, holding it on the calendar for consideration again Monday.

The bill would restore traditional dates of observance for Washington's Birthday, Columbus Day and Memorial Day. It goes now to the Senate.

Revenue sharing ruled out for AF dam highway

By DAVID ESPINO
Times-News writer

BOISE — The Joint Finance Appropriations Committee voted against spending any of the state's nonrecurring revenue sharing money to replace the American Falls roadway Monday.

The governor had requested \$500,000 for the project, but the committee adjourned before it could establish a priority figure.

Rep. V. McLean, R-Ketchikan, said a figure of \$500,000 was "ridiculous" to spend for a mansion for members of the ex-anybody at this time, but both penditure wasn't justified citing Sen. Vern K. Brassey, R-Boise, a recently announced plan by and Rep. Larry Jackson, R-Idaho Power Co., to help Boise, pushed for the higher finance replacement of the dam figure.

Among the agreed appropriations by the committee to come from the \$9 million are projects totaling \$3.50 million, leaving a balance of about \$5.5 million. An effort by Brassey to set aside about \$3.3 million for the first stage construction of a state office building was held for more information. An earlier effort to set aside \$6.3 million for the structure was defeated.

Senate relaxes stock rulings

Special to the Times-News

BOISE — The Senate gave its approval Monday to a bill relieving corporations of the obligation of printing certain information on the back of their stock issues.

The measure, which failed the Senate last week and passed on reconsideration, provides that the company must only print a notice on the back of the certificate that the information is available on request.

An effort by Sen. John Evans, D-Mald, to have the bill placed on 14th order for amendment was beaten back. Evans wanted the information made available with the distribution of certificates to the stockholders. Supporters of the measure claimed that there was too much information to be printed on the certificates to allow for large enough print size. Sen. Dave Eskelin, R-Boise, said the information will still be available but in a much better form.

Tests killed

BOISE (UPI) — The Senate killed Monday a bill that would eliminate pre-marital blood tests for syphilis.

Earlier, the bill passed the house 42-23.

Sen. James Yost, R-Wendell, said the blood tests in Idaho had uncovered only two cases of syphilis in 14 years at a cost of \$700,000.

Opinion

Section VI, Student Government, reads: "Students should be free to establish and be encouraged to participate in student government that provides all students a voice in school affairs, through a representative system."

What relationship does this have to Section VII, Item a, which says, "The school should not impose limitations on dress in which fashions or taste is the sole consideration; even if a majority of the students have approved a school dress code."

Section VI, Item d, states: "Official school publications would reflect the policy and judgment of the student editors. Students have the responsibility to refrain from libel and obscenity, and to observe the normal rules for responsible journalism."

Within those bounds students have a right, and news free its editors at other newspapers to report the news and to editorialize.

Whose responsibility is it if there are libelous and obscene articles in the paper?

Section VIII, Discipline, Item e, Grade Cuts, suggests: "It is suggested that grade cuts should be made if a student is found to be in violation of the school rules."

Section VII, Item a, which says, "The school should not impose limitations on dress in which fashions or taste is the sole consideration; even if a majority of the students have approved a school dress code."

Section VI, Item d, states: "Official school publications would reflect the policy and judgment of the student editors. Students have the responsibility to refrain from libel and obscenity, and to observe the normal rules for responsible journalism."

Within those bounds students have a right, and news free its editors at other newspapers to report the news and to editorialize.

Whose responsibility is it if there are libelous and obscene articles in the paper?

Section VIII, Discipline, Item e, Grade Cuts, suggests: "It is suggested that grade cuts should be made if a student is found to be in violation of the school rules."

It so states: "We, as members of the Idaho State Board of Education, believe that this document on Student Rights and Responsibilities must be based on the following assumptions:

"All students have a basic right to attend school. This right is inherent. It is not a privilege granted to the students. It is recognized that a student's primary and fundamental purpose in attending school is to engage in learning, and his or her cooperation and dedication is fundamental to quality education."

"Freedom of speech is guaranteed to all citizens, and students must be allowed to exercise their constitutionally protected rights of free speech, petition, and assembly, as long as they do not disrupt the educational process or interfere with the property or constitutional rights of others."

"Students are entitled to due process rights. This is a right which is fundamental to all human freedoms; to deny due process is to act on a presumption of guilt."

"Students must be free to establish, and should be encouraged to participate in, student government that provides all students through a representative system, a voice in school affairs. All registered students should be eligible to hold office."

"Schools are for students and students should be involved in the educational process in their schools. There should be a means available for students to channel their suggestions regarding curricular offerings."

"The activities of students other than those at school functions carried on entirely outside of normal hours and off school premises, should not be the responsibility of the school and no student should be penalized by the school administration because of such outside activities."

"Students should be free to dress or appear as they please as long as it does not jeopardize the health and safety of themselves or others, or disrupt the educational process."

"Students have a right to the equality of educational opportunity regardless of race, creed or sex."

BRIGHT IDEA From the Anderson Lumber "Answer Man"

introducing
'Bright-Ons'

New lightweight panels in House and Garden colors, mix or match in solids and patterns.

4 x 8 PLYWOOD PANELS... washable, easy to install, resists scuffing, denting

Now you can remodel any room in your house inexpensively, easily and beautifully with these new mix'n match lightweight plywood panels — the Bright new addition to the Grand Illusion Line.

EVANS PRODUCTS COMPANY

and only
\$6.95 per panel

Bright-Ons. They come in a rainbow of colors. Bright-Ons. They come in solids, patterns and textures — so you can mix and match and dream up a whole new dream house. Bright-Ons also work beautifully with many other panel patterns. And you can do it all without the hangups of heavy paneling, wallpaper or paint because Bright-Ons are as easy to install as they are to look at.

More than that Bright-Ons are already finished with an exclusive polyacid surface that's washable, scuff-proof and fade-proof. You can paint, paste, pin or nail on them. And you can match them with Evans Panel-Mates moldings.

Meat control nears

WASHINGTON (UPI) — The administration is nearing a decision to control meat prices, officials have repeatedly indicated. They regarded the decision to control meat prices as a "top priority" and "a necessary step" to control inflation, said William J. Scherle, director of the White House's "soberly" considering such action along with alternative, less drastic steps.

Scherle said the administration faces the grim prospect that organized labor will demand wage hikes going beyond the current 5.5 per cent guideline range, Scherle said.

Scherle, in a newsletter issued today, said the administration "is seriously considering placing raw agricultural products under price control." In an interview, he indicated he felt most attention was being given to a possible ceiling on raw or retail meat prices.

Asks penalty

SECRETARY of State William P. Rogers called Monday for the death penalty for eight Arab guerrillas who murdered two American diplomats in Sudan. "I don't know of any other way to deal with them," Rogers said. (UPI)

Demos attempt blockage

WASHINGTON (UPI) — House Democratic leaders joined with Senate Democrats today in a move to curb President Nixon's impoundment of \$14.7 billion in funds appropriated by the last Congress for several domestic programs.

Speaker Carl Albert, Majority Leader Thomas P. O'Neill Jr., and Chairman George Mahon of the House Appropriations Committee planned to reveal at a news conference their version of an anti-impoundment bill.

None of the leaders would comment in advance on details of the bill but it was expected to provide that the President would first have to get approval of Congress before he could withhold spending or appropriate funds.

The administration reported to Congress last month that it had impounded \$8.7 billion appropriated last year for programs affecting housing, education, conservation, defense, pollution and hospital and highway construction.

Administration spokesmen said that another \$6 billion withheld from an \$11 billion water pollution program was not included in their total because it was only authorized, not appropriated. Democrats point out, however, that the \$6 billion has been obligated by contract and must be spent the same as any appropriation.

More than half the Senate, 63 members so far, including Democratic leader Mike Mansfield, have co-sponsored a bill by Sen. Sam J. Ervin Jr., D-N.C., that would require the President to report to Congress within 10 days any funds he has ordered impounded. The funds would be freed again if both houses of Congress did not vote

approval of the withholding within 60 days of the reporting date.

The measure has been before Ervin's Subcommittee on Separation of Powers for a hearing and is expected to be voted on by that panel within the next two weeks.

The battle being mounted by the little operator the same one enjoyed by the big one, the House approved 36-0 and sent to the Senate Monday a bill to extend the liquor retailers' five per cent discount to all liquor dealers.

At present, licensed retailers are able to obtain a five per cent discount on liquor from the state liquor dispensary only on unbroken case lots.

Rep. Ralph Olmstead, R-Twin Falls, told the House that bigger operators are more able to purchase their liquor in unbroken case lots than little dealers.

Last year, he said, the discount amounted to \$302,000 in a \$26.5 million business. He said the size still received a net profit of \$9.5 million.

Rep. Ernest Hale, R-Burley, led the attack on the bill. "I certainly don't approve of the state of Idaho being in the liquor business," Hale said. "But were there and since we're there I think we should make a profit out of it."

Discount extended

BOISE (UPI) — Urged to give the little operator the same one enjoyed by the big one, the House approved 36-0 and sent to the Senate Monday a bill to extend the liquor retailers' five per cent discount to all liquor dealers.

At present, licensed retailers are able to obtain a five per cent discount on liquor from the state liquor dispensary only on unbroken case lots.

Rep. Ralph Olmstead, R-Twin Falls, told the House that bigger operators are more able to purchase their liquor in unbroken case lots than little dealers.

Last year, he said, the discount amounted to \$302,000 in a \$26.5 million business. He said the size still received a net profit of \$9.5 million.

Rep. Ernest Hale, R-Burley, led the attack on the bill. "I certainly don't approve of the state of Idaho being in the liquor business," Hale said. "But were there and since we're there I think we should make a profit out of it."

Defense argues trial setback

LOS ANGELES (UPI) — The defense in the Pentagon Papers trial Monday, ruling out attempts to show the papers were taken to provide accurate information about the Vietnam war to a Congress deceived by the President.

There was no other way other than the one the defendants chose to get this information to the Congress," argued a lawyer for Daniel Ellsberg and Anthony J. Russo.

"We are prepared to show that there was a struggle to get information on the war and the resultant erosion of congressional responsibilities," U.S. District Court Judge Matt Byrne ruled against them, saying the "defense of justification" has not been allowed since well before the turn of the century, and has only been accepted in cases involving otherwise illegal actions taken to avoid death or serious personal injury.

Byrne asked the defense to submit to him a memorandum on the legal points involved, keeping alive the possibility he could reverse himself later in the trial and admit evidence supporting that defense.

The ruling came during the testimony of Rep. Paul N. McCloskey, R-Calif., the second defense witness. McCloskey, who opposed President Nixon for the Republican presidential nomination, was one of the first congressmen to oppose American involvement in Vietnam.

McCloskey was expected to testify that if Congress had known the contents of the Pentagon Papers, it would have helped the lawmakers take steps to end the war.

The ruling forbidding presentation of evidence to support that defense was also expected to dilute the impact of testimony the defense plans to offer from Sen. J. William Fulbright, chairman of the Senate Foreign Relations Committee.

Spy satellite

CAPE KENNEDY (UPI) — The Air Force launched a spy satellite into space early today to keep an electronic watch over Soviet and Chinese military missile tests.

The Atlas-Agena rocket blazed a fiery trail into space from Cape Kennedy about 4:30 a.m. EST. The Air Force made no advance statement about the launching, which could be seen for miles in the clear, pre-dawn sky.

Ten minutes after the launching, the Air Force issued a statement saying "an experimental payload" had been fired from Complex 13 at the Kennedy Space Center.

Almanac

By United Press International
Today is Tuesday, March 6, the 65th day of 1973 with 300 to follow.

The moon is between its new phase and first quarter.

The planetary stars are Venus, Mars and Jupiter.

The evening stars are Mercury and Saturn.

Those born on this date are under the sign of Pisces.

British poet Elizabeth Barrett Browning, wife of poet Robert Browning, was born March 6, 1806.

On this day in history
In 1836, Mexican forces captured the Alamo in San Antonio, Tex., killing the last of 187 Americans who had held out for 13 days, including famed frontiersman Davy Crockett. From the slaughter arose the cry "Remember the Alamo!"

In 1859, the United States Supreme Court handed down its landmark ruling that Negro slave Dred Scott could not sue for his freedom in a federal court.

In 1964, King Paul of Greece died at the age of 62 and was succeeded by his son, Prince Constantine. A military regime took over the country three years later, and remains in control today.

In 1968, Joseph Martin, Massachusetts Republican who was speaker of the House of Representatives from 1947 to 1949 and from 1953 to 1955, died at the age of 83.

Pope Paul names 2 new cardinals

VATICAN CITY (UPI) — Pope Paul VI announced two new cardinals to Roman Catholic Curia shops today, extending his shakeup of the Vatican cabinet.

The appointments, part of the sweeping Curia reshuffle, the pontiff began last week, overshadowed simple funeral ceremonies today for 29 of the 31 men promoted or named Monday as cardinals. Three Americans were among the 29 who accepted red hats at the Vatican.

Today's appointments were French Cardinal Paul Philippe as prefect of the Congregation of the Oriental Church and Italian Cardinal Sergio Pignedoli as president of the Secretariat for Non-Believers.

Pignedoli, 68, often mentioned as a possible future papal candidate, took the job left vacant last week by the retirement of Cardinal Paolo Marella.

CSI vo-ed funds priority climbs

(Continued from p. 1)

Rep. Marion Davidson, D-Bonners Ferry, objected to what he said was the "opening of a door" to a new junior college in eastern Idaho, an apparent reference to the proposed expenditures at the Eastern Idaho Vocational Education at Idaho Falls.

But Sen. J. Muradon Williams, R-Idaho Falls, said there was "no attempt to construct a new junior college in eastern Idaho."

The committee also balked at the expenditure of \$260,000 for a new slaughterhouse at the new state penitentiary, when Sen. Ralph Varrbough, R-Grand View, told committee members that only one cow and two swine a day were slaughtered at the present facility.

Also included in the recommendations by the committee were \$200,000 for the construction of child development satellite centers scattered across the state and two youth-rehabilitation centers in the Boise area.

The Department of Public Works would also receive appropriations of \$278,800 for

the coming year under the committee's recommendations, an increase of \$23,000 over the current year. All the money would come from the permanent building fund.

Max Boesiger, director of public works, said the revamped priorities for construction were worked out at a committee of legislators and a quorum of the advisory council held last week.

By department, the recommendations of the committee include:

- Capitol Mall: remove obsolete buildings, \$50,000;
- education: Boise State College phase 1, science education building \$1.8 million;
- education: North Idaho College \$170,000 for completion of a general science building; education: Lewis-Clark College \$35,000 for replacement of utility works;
- education: University of Idaho Law School, \$300,000;
- vocational education: CSI vocational building phase 1, \$950,000;
- vocational education Idaho State University welding

Building replacement: \$100,000;
- vocational education: Eastern Idaho vocational school, classroom addition \$365,000; planning shop addition, \$40,000;
- Department of Environmental and Community Services: State Youth Training Center, heating system, \$102,000; State Hospital South, remove obsolete buildings, \$30,000; repair building foundations and exteriors \$108,000; regional laboratory construction at Idaho Falls, \$89,000; construct child satellite centers in Boise, \$200,000;
- Public lands: construct Coolin residence, Coolin crew bunkhouse, office building at Sandpoint and maintenance and vehicle storage sheds, Idaho Falls, \$121,000;
- Permanent Building Fund Advisory Council: supplemental appropriations for overruns \$160,000; tax anticipation notes \$65,000;
- Department of Public Works: \$278,800.

Bill emerges

BOISE (UPI) — A school reorganization bill sought by the State Board of Education's ad hoc committee came out of the house education committee without recommendation Monday.

Rep. C. L. (Butch) Otter, R-Caldwell, moved to put the measure to the floor. The bill has been stalled in the committee for weeks while awaiting further action on a substitute bill to change the effect of the board's proposal.

Otter said he wanted to get the original bill out of the committee since he said he has succeeded in burying the substitute bill in the printing committee. Otter in past meetings contended the amended version is unworkable and destroys the effect of school reorganization.

Non-partisan vote endorsed

Special to the Times-News

BOISE — The state superintendent of public instruction said Monday he favored a proposed measure that would require the superintendent to seek election on a non-partisan ballot.

A measure calling for the switch in election proceedings from the current party election is pending in the Senate Health, Education and Welfare Committee. It has already passed the House.

D. P. Engelking said education should be concerned with the kids in the school district. He said superintendents "shouldn't be playing politics in any shape or form."

He noted that judges are elected on non-partisan ballots and said superintendents "should be in the same category."

Engelking also expressed support for an appointed superintendent, but only if he were appointed by a state board of education that was elected on a non-partisan election.

Lake protection bill wins Senate panel nod

By DAVID ESPO Times-News writer

BOISE — The Senate Resource and Environmental Committee gave its approval to a measure limiting the construction of encroachments on lakes Monday, the second piece of proposed legislation to replace the 1971 stream channel alteration act.

The full Senate passed the 1973 amended version of the stream channel bill on a 21-14 vote last week and sent the measure to the House.

The measure approved on the floor last week and the one approved by the Senate committee Monday were the work of a special ten-man joint subcommittee studying changes in the controversial 1971 law.

The lake encroachment bill establishes a permit system for those persons wishing to construct encroachments and puts the State Land Board in charge of the system.

It also states that the board may "dispose with procedural requirements for permit application and approval of encroachments in aid of navigation or for repairs to an existing encroachment."

The activity meets at least minimum standards adopted by the board.

Sen. J. Wilson, Sreen, R-Glenns Ferry, head of the special subcommittee, told the Resource and Environment numbers the proposal was "drafted for pretty good protection for the environment and for the property owner."

He said "we tried to build in some protection for our lakes."

But Sen. John Peavey, R-Rupert, got the committee to go along with his request for a letter of legislative intent to clarify one section of the bill.

Water shutoff proposal wins approval in House

BOISE (UPI) — Legislation that would allow a watermaster to shut off water unless the recipient has a decree or valid permit or license won House approval 48-18 Monday despite contentions it is unconstitutional.

Rep. Angus Condie, R-Preston, said the bill became

necessary because of a Jan. 17 supreme court ruling that removed power of watermasters to control claimed use rights. This would allow a watermaster to shut off water in times of scarcity and emergency.

Without this provision, Condie said, it is the same as "telling a referee in a basketball game he can't blow his whistle."

Rep. Walter Little, R-New Plymouth, said the bill is unconstitutional because the constitution guarantees rights of first in time as first in use.

Joining him were Rep. David Little, R-Emmett, who said the bill can cause a real hardship for water users along the Payette River.

Exemption kills bill

BOISE (UPI) — A bill to make unlawful the sale or use of muffler bypasses and outlawed 72-15 on the Senate floor Monday because it contained a farm exemption.

Sen. Orval Snow, D-Moscow, a farmer in private life, raised the objection to the farm exemption and pointed to some of his own hearing losses as a reason for defeating the bill in its present form.

"I can see no reason whatsoever to exempt anything from this legislation," Snow told the Senate. "I'm urging the exemption for agriculture be stricken from this bill."

Sen. C. C. Chase, D-St. Maries, an auto dealer, agreed. "I can't understand why every law we pass in this state has to have an exemption for agriculture," Chase said. "I think you people should work under the same laws as other people in this state."

Legislative log

By United Press International

BOISE — The Idaho Legislature passed a series of bills Monday, including a measure to allow a watermaster to shut off water unless the recipient has a decree or valid permit or license.

The House approved the measure 48-18 Monday despite contentions it is unconstitutional.

Rep. Angus Condie, R-Preston, said the bill became necessary because of a Jan. 17 supreme court ruling that removed power of watermasters to control claimed use rights. This would allow a watermaster to shut off water in times of scarcity and emergency.

Without this provision, Condie said, it is the same as "telling a referee in a basketball game he can't blow his whistle."

Rep. Walter Little, R-New Plymouth, said the bill is unconstitutional because the constitution guarantees rights of first in time as first in use.

Joining him were Rep. David Little, R-Emmett, who said the bill can cause a real hardship for water users along the Payette River.

2 TF students perform at meet

TWIN FALLS — Two Twin Falls High School students, members of the All Northwest Music Convention, performed in the All Northwest Music Convention, Portland, Ore., Feb. 16-19. Richard Snack announced today. The students were selected from tapes submitted to the state recording chairman in November. Other students attended from Idaho, Oregon, Alaska, Washington, Wyoming and Montana. A thought for the day, British writer Samuel Johnson, said, "The first years of a man must make provision for the last." Snack said VanderDoes was a member of the All Northwest

MR. AND MRS. ROBERT L. DAVIS

Jerome couple exchange promise

JEROME — Mr. and Mrs. Nevada and Sun Valley. They Keith Shewmaker announce the marriage of their daughter, Rebecca Correll, to Robert L. Davis, son of Mr. and Mrs. Lynn Davis, all Jerome. The ceremony was performed Feb. 13 at the Presbyterian Church, Elko, Nev. The couple honeymooned in

will reside in Spokane, Wash. The bride is a 1971 graduate of Jerome High School, attended Boise State College one year and presently is a student at the College of Southern Idaho. The bridegroom was graduated from Jerome High School in 1971 and is employed at Nagler's in Spokane.

Couple recites vows

MURTAUGH — Jannett Anderson became the bride of Stephen M. Tucker in rites Feb. 16 in the Logan LDS Temple, with President Spillman officiating.

The bride is a daughter of Mr. and Mrs. DeVon Andersen, Murtaugh, and the bridegroom is a son of Mr. and Mrs. Donald Tucker, Twin Falls.

The bride wore a floor-length gown of white polyester double knit in an empire style. The gown, made by the bride's mother, featured ruffled lace trim on the bodice and lace on the sleeves and high neckline. She wore a cultured-pearl necklace, a gift from the bridegroom.

Her floor-length veil of bridal illusion was held by a lace headpiece with a satin bow. She carried a cascade bouquet of pink roses, white daisy chrysanthemums and baby's breath accented with lace and white ribbon streamers.

Mrs. Jim Ferguson, Twin Falls, was matron of honor. Kelly Randall, Logan, was best man. Ushers were Casey Andersen, David Andersen and Jack Andersen.

The couple was honored at a reception. The floral arrangements consisted of two bouquets of clusters of white daisy chrysanthemums, pink carnations and baby's breath with pink bows on white pillars.

The bride's table was covered with pink nylon, fringed and a pink skirt topped with a white crocheted cloth. The table was centered with a three-tiered cake decorated with pink roses, white hearts and sugar doves and topped with a heart and flower arrangement of pink roses, small white chrysanthemums and baby's breath. The cake was baked and decorated by the mother of the bride.

Guests were served at round tables centered with bouquets matching the cake top in crystal bowls. The cake was cut and served by Mrs. Robert C. Peterson and

MR. AND MRS. STEPHAN M. TUCKER

Mrs. Clarence Egbert. Assisting at the serving table was Mrs. Bill Nebeker.

Assisting in the kitchen were Mrs. Frank Nebeker, Mrs. Glen O. Petersen and Mrs. LeRoy Lee. Mrs. A. K. Nebeker, Leanne Egbert, Donna Egbert, LaNell Mathews, Twin Falls, and Brenda Peterson.

Mrs. James Sommer, Twin Falls, was in charge of the guest book. Gifts were cared for by Mrs. Earl Wright, Murtaugh; Mrs. Leonard Bay, Twin Falls, and LeAnn Palone, Suzanne Hanson, Cheri Fial and Pat

Bersack, all Logan, Utah.

Special guests included brothers and sisters, aunts and uncles of the bride and bridegroom and Mr. and Mrs. Louise Deschamps, Malad, Idaho.

The bridegroom is employed as an associate teacher at Logan Junior High, Logan, Utah. The bride is a student at Utah State University, Logan, Utah.

MV students attend symposium

TWIN FALLS — Four Magic Valley high school students returned to school Monday after attending the Intermountain Junior Science and Humanities Symposium at the University of Utah.

The students were Santa Stroppe, Twin Falls; DeAnn Dixon, Richfield; and Randy Olsen and Reed Larsen, both Burley. They were among about 160 students from the Intermountain states attending the four day meet sponsored jointly by the University of Utah and the U.S. Army.

The purpose of the program was to demonstrate the role of the humanities in the development of scientists and to emphasize the importance of both the humanities and the sciences to the national culture.

This year's theme, "Civilization: The Human Environment," was developed through lectures by the university faculty, student tours of the campus scientific and medical laboratories, and presentations of student research projects.

Abby

Abigail Van Buren

DEAR ABBY: Since your mention of WAIF (an agency for adopting a child from Viet Nam) a few days ago, this office has been inundated with requests for information and applications—particularly from unmarrieds.

We do not generally handle single parent adoptions, and presently have a long waiting list of approved couples who get preference.

The sheer physical work of answering these thousands of inquiries is overwhelming since we are a nonprofit organization operating on public funds. So thanks to the tremendous response from Dear Abby readers, we have a serious problem. We are understaffed, underfinanced, and swamped. Please, help!

MAUREEN O'BRIEN
WAIF, PUBLIC INFORMATION

Help needed

DEAR MAUREEN: What a great opportunity to inform those in the New York area that you could use some temporary volunteer office help (Phone: 687-2747) as well as contributions in any amount. And hopefully those who seek information about adoptions will enclose at least the postage for a reply.

DEAR ABBY: I did a terrible thing, and now I can't sleep nights. I am not a thief; but for the first time in my life I stole something from a store.

I am in my eighth month of pregnancy and went to the store to buy some diapers. That took all the money I had, but I happened to see a beautiful pink baby sweater lying right out where I could pick it up, so when the clerk turned her back to me, I picked up the sweater and put it in my coat pocket.

I was sorry the minute after I did it, but the clerk turned around and I couldn't put it back, so I walked out with it. Abby, I shook like a leaf all the way home.

That night I dreamed my baby was born without hands. Now I am afraid God will punish me for stealing by giving me an imperfect baby. I'm afraid if I return the sweater they will put me in jail. I love the Lord and have always tried to live by His commandments. Please help me, Abby.

DEAR BRAYING: Return the sweater to the clerk and tell her what you told me. First offenders who return stolen merchandise are dealt with generously.

DEAR ABBY: My husband and I are well able to help our married children out financially. We have three, but there is one daughter who needs it much more than the others. She and her husband have five children, ranging in ages from 13 to 5. He earns a very modest living and isn't able to pay all his bills and feed and clothe those children the way he should. I know this has my daughter worried and upset, but my husband refuses to give them any financial help because this daughter's husband gives 10 per cent of all his earnings to the church.

Is my husband right or not? It's the only thing we ever argue about. I'd like your opinion.

UPSET MOTHER

DEAR MOTHER: Surely your husband can't fault a man for honoring a commitment to his church! If your husband can't see it your way, dig into the sugar bowl and help your daughter as much as you can, personally.

DEAR ABBY: I just read in your column that a lady was told by a friend that giving wedding gifts was "old-fashioned." She said today they just pass a tray around and the guests deposit money—starting with \$10.

If money is all that important, why don't they book the wedding at a wrestling match? A few years back, when I was a professional wrestler, they had an occasional wedding at the wrestling matches. It was usually one of the wrestlers who got married. But since a wedding is usually the beginning of a fight, they might be able to find a promoter who would book it.

REV. LLOYD F. TEASLEY, CROFTON, KY.

Problems? You'll feel better if you get it off your chest. For a personal reply, write to ABBY, Box No. 64700, L.A., Calif. 90060. Enclose stamped, self-addressed envelope, please.

Eating cost hints given in booklet

WASHINGTON (UPI) — A typical serving of a beef rib roast can cost about three times as much as a serving of turkey providing the same amount of protein.

The Agriculture Department makes the point in offering a handy guide to cheaper eating, a service for consumers up in arms about soaring meat prices.

The guide, which appears in the current issue of the department's Family Economics Review, says there is little economy in substituting "cheap" meats like frankfurters and bologna for equivalent amounts of protein if equivalent protein-cost figures in the guide are all based on food prices in October, 1972, and prices for the foods covered in the survey have risen considerably since then. But Mrs. Betty Peterkin, a home economist who prepared the guide, said the relationship between different protein sources probably has not changed greatly at the higher price levels.

The guide shows that with round steak selling at \$1.51 a pound last August, a small serving furnishing 20 grams of protein (one-third of the recommended daily amount for a 20-year-old man) would have cost 21 cents a portion. Frankfur-

Heat due

CUTBACKS in Office of Economic Opportunity programs will cause nation to "experience the hot summers of 1969's all over again," Ralph Abernathy, director of Southern Christian Leadership Conference, said in speech at Oxford, Ohio, (UPI).

Typhoid menaces migrants

HOMESTEAD, Feb. 20 (UPI) — The Idaho County public health director said Monday a typhoid fever epidemic could spread to as many as 100 residents of a sprawling migrant labor camp before the outbreak is checked.

"This is probably the most severe typhoid outbreak in the United States in at least 10 years," Dr. Milton Saslaw said after 45 typhoid cases had been confirmed and another 66 "suspect" cases were under close watch in hospitals.

"This is a major outbreak, a very major outbreak," Saslaw said. "I guess you could call it an epidemic."

The labor camp, which houses nearly 2,000 Mexican-American and Puerto Rican farm workers in 320 concrete block buildings, is located near the Homestead Air Force Base and is considered a "model" for other labor camps.

At least 18 of those stricken by the stomach and intestinal disease are children. There have been no fatalities and Saslaw said that "with medicine being what it is today, these people should recover fully."

Reporter testifies

WASHINGTON (UPI) — A time magazine reporter complied with a court order Monday and gave formal testimony about the magazine's coverage of the bugging of Democratic National Headquarters at the Watergate.

Walter Sheridan, one of the newsmen supposed to have deposited Monday, answered questions by attorney Thomas Jackson. The two other newsmen, Carl Bernstein and Bob Woodward of the Washington Post, were granted continuances until the end of the month.

35,800 jobs for health nurses

TWIN FALLS — The South-Central Idaho Health District nursing staff took part in 35,795 activities ranging from talks before student classes to general disease clinics.

The annual report of the district for 1972 shows there were 7,221 immunizations given, with 3,630 in Twin Falls county; 1,819 in Cassia; 519 in Blaine; 432 in Gooding; 305 in Jerome; 290 in Lincoln; 123 in Blaine; and 48 in Camas.

There were 12,055 persons involved in talks and training classes; 8,154 screening for vision and hearing; 7,531 brush-in training; 400 attending crippled children's clinics in Twin Falls and 435, venereal disease clinics.

Nursing visits to the district totaled 8,829 during 1972 with visits including those for adult and child health, crippled children's services, acute and chronic disease and communicable diseases. Of the visits, 2,168 were in Twin Falls county; 1,615 in Cassia; 1,268 in Gooding; 1,124 in Blaine; 1,149 in Lincoln; 685 in Jerome; 807 in Blaine; and 123 in Camas.

In the environmentalist field, increasing demand for inspection has required the district to be divided into two sections. One environmentalist has been assigned to Blaine and Camas counties and one to Gooding, Jerome and Lincoln counties.

This required relocating a Twin Falls man and training new environmentalists in milk control work. There are four environmentalists engaged in inspecting dairies selling milk for

pasteurization and bottling plants.

The biggest environmental work load, 34 per cent, goes to septic tank inspections and all subsurface sewage disposal systems.

State law requires the department make such inspections. The district inspected 2,049 new installations of this type last year.

The food control program represented 10.5 per cent of the environmentalist's time with 1,374 such actions. Milk control work involved 9.1 per cent of the district environmentalist's time with 750 such inspections. Water supplies required 515 inspections.

The environmentalist reports show 126 water pollution inspections and 302 air pollution actions. There were 13 rodent cases and 29 insect cases among the year's activities.

Meeting called

HANSEN — The annual stockholders meeting of the Hansen Sewer and Water Improvement Association will be at 8 p.m. Wednesday in the Hansen City Hall.

Four directors will be elected, three for regular terms and one to fill an unexpired term of two years.

Association officers invite one representative from each household to attend the meeting.

Defense budget all lean

WASHINGTON (UPI) — Defense Secretary Elliot L. Richardson said Monday there were no pockets of fat in the Pentagon budget that could be used to pay for reconstruction of North Vietnam, but said some money might be diverted to the program from Southeast Asia funds.

"There has been some talk there are pockets of fat we could reach into for reconstruction of Southeast Asia," Richardson told a news conference. "I cannot find any pockets of fat. We have no concealed source of funds for Southeast Asia for reconstruction."

He said the \$1.9 billion budget

US proposes auto tire grade plans

WASHINGTON (UPI) — Hoping to end consumer confusion over the quality of automobile tires, the government Monday proposed a system to grade and label tires according to high speed performance, traction and wear.

High speed performance would be indicated by an "A-C" system of letters "imprinted on the sidewall of the tire."

"A" would be the highest grade and "C" would indicate the minimum level of performance required by federal safety standards, said Douglas Toms, administrator for the National Highway Traffic Safety Administration.

Grades for traction would consist of asterisks, with three indicating the highest grade.

Tread wear would be shown by numbers which specified a percentage tread wear, Toms said.

Said Toms: "There has been much confusion, both in the industry and among individual consumers, on how to differentiate between high and low grade tires."

Test hole planned

PARMA (UPI) — Standard Oil Co. equipment has arrived near here to punch a test hole almost two miles into the earth in search of gas and oil.

The site is six miles north of here on property owned by the Highland Livestock and Land Co.

Drilling foreman Jack Bird, Los Angeles, said officials plan to drill about 12,000 feet. About 28 men will work on the project.

"We hope to start drilling by the end of the week," Bird said.

Harvey Montgomery, District Manager of Bakersfield, Calif., has contracted with the Standard Oil of California to sink the test well.

Bird said his firm selected the site after reviewing results of several trips around the area scouting possible gas and oil yielding strata.

Grange hits price rules

WASHINGTON, D.C. — The National Grange has criticized a recent AFL-CIO executive council resolution calling for government controls on farm prices.

Grange criticism is aimed at the labor organization and others assuming the rapid increase in food prices is due to the exemption of raw agricultural products from price controls.

John Scott, master of the National Grange, said "Farm products are sold in an open and free market, where supply and demand set the price — not the farmer. We support the administration's position that the production of food has not been a contributor to inflation and therefore should not be the subject of economic controls."

Scott said: "No one is concerned when food prices are

Ketchum adopts budget

By TERRY CAMPBELL
Times-News writer

KETCHUM — After no protests were recorded during a public hearing, the Ketchum City Council Monday night adopted a 1973 budget of \$363,913.

The figure compares to last year's budget of \$245,116, constituting a 48 per cent increase. However, Mayor Kenneth Richey said the budget will result in no mill levy increase.

The budget includes about \$13,000 in anticipated revenue sharing funds. About \$9,000 will be used for payments on a new grader, with the remainder to be used for street department equipment.

To fund additional compensation for volunteers and acquisition of fire-fighting equipment, the fire control and prevention fund was raised about \$13,250 to a 1973 figure of \$20,651.

The animal control and shelter fund was increased to \$15,830 from 1972's \$5,990. Included in the figure is \$8,450 in capital outlay for the new shelter and equipment.

Funding for law enforcement and crime prevention increased about \$8,400 to cover the costs of one additional officer and scheduled reduced per centage funding by a Federal Law Enforcement Planning Commission grant for two other present department personnel.

The miscellaneous fund rose \$65,000 to a 1973 figure of \$128,387 and includes an addition of about \$50,000 in tax anticipation note payments this year.

An \$24,353 increase in revenue from licenses and permits is anticipated this year, over 1972, with a total of \$13,500 anticipated from that source.

Other budget funds were set as follows: general government, \$52,040; building, housing and protective inspections, \$7,200; sanitation fund, \$1,220; and road and street fund, \$91,600.

In other action Monday night, the council:

- Took under advisement three bids for a 1973 city insurance coverage.

Gooding okays store permit

By PEGGY CHU
Times-News writer

GOODING — Gooding city councilmen Monday night approved a building permit for a Circle K food store to be constructed on the corner of Seventh Avenue and Main Street.

The council also approved a beer and wine license for the store which will be located on the site of the present Varsity Inn.

Two members of the Gooding Housing Authority met with the council to request a reduction in the sewer and water charges at the present Gooding Citizens Housing.

Phil Becker told the council that the Farmers Home Administration requires a 10 per cent non-occupancy deposit which amounts to \$9,000 per year. He said the authority has not been able to build up the reserve and that unless the city can either eliminate or reduce the charges the rent on the housing will have to be raised.

The Housing Authority currently charges \$65 per month for the one-bedroom units.

Sever and water charges at the Senior Citizens housing amount to about \$10 per month. According to Becker, the housing authority will not have as much trouble accumulating a reserve on the Senior Citizens units now under construction because \$70 rent will be

The first meeting of the City Planning Commission will be at 7 p.m. Wednesday at the Lincoln Inn, Mayor Harley Crippen announced. Members of the commission are Mrs. Phil Becker, Fred Tacke, Mrs. Ray Hendrix, Eugene Gibbons and Tom Morrison.

The council instructed assistant city attorney John Varin to draw up an amendment to the present dog leash ordinance. The ordinance is to be amended so that the owner of a stray dog can be cited and brought before magistrate court on a first offense. The present ordinance states that the owner can be cited the third time his dog is picked up.

The city will request an estimate on the cost of repair for the standpipe of the water tank behind the Lincoln Inn. The tank is not in use, however, according to Mayor Crippen. City Engineer Wendell Smith has recommended that the city not sell the tank.

Thursday meet slated

SUN VALLEY — The Wood River Peace Officers Association will stage a day-long instructional session on debt investigation, Thursday at Sun Valley.

According to association president Doug Williams, the session will be conducted by the State Attorney General's office

with Gene Lee as instructor.

The meeting will begin at 9 a.m. at the Walnut Room, which was donated by the Sun Valley Company Inc. in the Sun Valley Inn. Williams said all interested peace officers in the Wood River Valley and Magic Valley are invited to attend.

coronary artery conditions of patients.

The coronal practitioner mentioned the fact that area residents "must be sent to Ogden" to receive the vital heart tests. Both Cassia and Minidoka Memorial Hospitals have excellent acute care facilities for heart patients, he said, but are lacking in "preventative" diagnostic equipment that would reduce future attacks.

"What happens when a person recovers from a heart attack and is ready to go back to work? How much work should he be allowed to do?" Chess asked.

He described stress testing as the "par excellence" of methods used to diagnose the capabilities of coronary patients. Stress testing involves putting the patient on a treadmill and closely monitoring his heart during the exercise, according to Chess.

Professional monitoring should prevent excessive taxing of the heart during the exercise, he said, but the tests should be conducted in a hospital where

recitation equipment is at hand.

MAGIC VALLEY Hospital Auxiliary president, Dolores Brawley, left, discusses new fetal heart monitor with Dr. George Miller, Magic Valley Memorial chief of obstetrics, and Mrs. Jo Claiborn, past president of the auxiliary. The device was presented to the hospital by the auxiliary Monday.

Hospital donates TF auxiliary monitors to hospital

TWIN FALLS — A device for monitoring the heartbeats of infants during birth has been presented to Magic Valley Memorial Hospital by the ladies' auxiliary.

According to Dr. George Miller, chief of obstetrics and gynecology at the hospital, the fetal monitor will provide doctors and nurses with an accurate and continuous report on the unborn infant's heart monitor will immediately indicate if the maneuver has been successful, he said.

The monitor, Miller said, can also indicate potential dangers to the fetus from a variety of causes. He explained that the device employs both video and audio output, including a magnetic tape which provides a continuous electrocardiogram, a heart rate meter, and an amplifier through which the actual sound of the fetal heartbeat may be heard.

Miller expressed his gratitude to the ladies auxiliary for a valuable contribution to Magic Valley Memorial's life saving equipment.

The unit was formally presented to the hospital at an auxiliary meeting Monday by Mrs. Jo Claiborn, 1972 auxiliary president. The gift was selected by Mrs. Claiborn in her capacity as president of the group. Because of the high cost of the unit, \$6,000, half the cost will be paid from the auxiliary's 1972 fund raisings and half from its 1973 fund drive.

The auxiliary presents a gift to the hospital annually. Past gifts have included isotherms, humidifiers, cardiac monitoring equipment, intensive care unit equipment and electric bassinets, as well as furniture and other redecoration at the hospital and several cash donations.

Priorities set for Idaho Women's Political Caucus

BOISE — The Idaho Women's Political Caucus has been formed as the answer to the question, "Where From Here?"

The Caucus, a statewide network of women interested in achieving equality through the political process, organized as a direct result of a three day conference held this past weekend at Boise State College.

Passage of S 1000, the Property Rights Bill, is the immediate priority of the caucus. The long-term goal is an effective lobbying organization to meet the challenge of another effort to amend the Equal Rights Amendment, to abolish abortion and contraceptive laws and to take legislation concerning women out of the emotional realm. The caucus will inform and educate legislators to make progressive legislation a reality in Idaho.

A definite concern of the 400 women attending the conference was the need for more consciousness-raising and organizational skills on the local level, to form a base for the statewide organization. The Boise YWCA, 720 Washington, will serve as clearinghouse, as well as temporary base for the action network.

Burley doctor asks hospital equipment funds

BURLEY — Burley Chamber of Commerce members heard a "pitch for money" from Dr. Richard Chess at their luncheon meeting here Monday.

Chess, a Burley physician who moved to the area from California last July, said hospital "stress" testing equipment should be made available on a local basis to Cassia and Minidoka County residents. His "pitch" was for "something in the range of \$5,000" for purchase of a treadmill and monitoring equipment to be used in testing

arteries have also been used to diagnose patient capabilities, much as stress testing, according to Chess.

Chess said he had contacted local physicians concerning stress testing equipment and found that "all of them are for it and would support it." The fee for stress testing ranged from \$50 to \$125 in the Los Angeles area, he said.

The chamber members also heard a request from Larry Stephenson, Burley, for their participation in "Larry Chealy Day" in Burley, this Saturday.

Chess opened his address with a discussion of current medical reports concerning coronary artery disease. He said confirmed "risk factors" contributing to the malady include high blood serum cholesterol, high blood pressure and cigarette smoking. Suspected and controversial "risk factors" include blood sugar content, obesity, psychosocial factors and habitual physical activity, he added.

X-ray studies of coronary

arteries have also been used to

Burley airs manager plan

By DAVID HORSMAN
Times-News writer

BURLEY — Burley voters may have a chance this summer to switch to a city manager plan, form of municipal government.

A committee of 14 prominent Burley residents approached Councilman Monday with an offer to gauge community sentiment concerning the city manager plan.

Charles Hendricks acted as spokesman for the group which included Lloyd Hollinger, Merle McVerry, Grant Ellmore, Ed Hollard, Edward Hartman, LaMar Cramer, Theda Fink, Tom Henderson, Norval Whelan, Jay Schindler, Gary Aason, Patsy Holsinger and Bill Morgan.

"I think the business people of Burley might be time to go to the city manager form of government," Hendricks said.

He said the committee would be willing to coordinate a program to educate the community concerning the city manager plan and gather petitions in support of the change.

If petitions are brought forward, we would be obligated to all for an election to get the people's feelings," Burley Mayor Camas Robertson said.

Robertson has already announced his plan to retire from the public office when his term expires at the end of this year.

Hendricks said a series of public meetings would probably be held to discuss the city manager plan. The plan calls for the hiring of a professional administrator or city manager to supervise all municipal affairs and appoint the heads of all city departments.

The council would be retained as a body of seven elected officials which would be the chief governing unit of the city determining policies and passing ordinances. The city manager would carry out policies set by the council. The council would select a mayor who would preside at meetings, but have no more power than the other six councilmen.

City attorney William Parsons said the present council would be terminated if the city manager plan is voted in. Seven new officials would then be elected to staggered terms, he said. The four general election would be receiving the most votes would serve four year terms and the other three would serve two years each.

"I think both forms of government should be discussed at the public hearing," Robertson said.

Commenting on the motives of the committee, Hendricks said, "I really think from a business standpoint the city needs professional direction. I just believe this is kind of the righting of place."

The committee lauded Robertson for a job well done.

They hinted that his decision not to run for office again accentuated the need for a replacement who would continue the good work.

Robertson said a petition registered voters in the last terms, he said. The four general election would be necessary before an election could be justified.

Councilman Cloyd Taylor said the committee should present the petition to the council as soon as possible to allow the city manager vote at least 60 days before the next general election in November.

The committee should also recommend a raise in the mayor's salary in case the city manager plan fails, councilman James Roper said.

All the council members supported the committee action in a roll call vote.

Gooding council approves budget

GOODING — The Gooding City Council approved a budget of \$50,988; flood control, \$1,000; fire department, \$13,000; hearing Monday.

No one met with the council to contest the budget which is a \$47,800 increase over last year's expenditures of \$38,254.

Of the 1973 budget, \$47,385 comes from revenue sharing funds; \$12,375 from parks, grants, and \$500 from a police grant.

The budget minus these extra funds is lower than the 1972 budget by \$22,361. The 1973 budget without the revenue sharing funds and grants totals \$360,393.

By department the budget is: clerks office, \$32,303 compared to \$16,219 spent last year;

Street department dropped to \$86,700 from \$69,612; sanitation, \$20,000, \$19,306; airport, \$4,000; recreation, \$18,840; library, \$8,000, \$8,000; irrigation, \$30,750, \$37,619; waterworks, \$114,735, \$93,285; sewer system, \$49,325, \$34,810.

Revenue sharing funds of \$47,385 will be spent in the fire, street, and waterworks departments. \$300 of the revenue sharing funds was budgeted for a fire hose; \$2,700 for sidewalks along Seventh Avenue to the new high school and \$44,385 was included for enlargement of water lines.

5 charged at Gooding

GOODING — Five adults were arraigned in Gooding Monday night on charges of arrested Friday night with 12 juveniles. The four men were held in the Gooding County Jail Saturday, then released to their parents. The woman was not held.

The arraignment was continued until those accused are able to consult with attorneys, according to Charles Shaw, magistrate.

Juvenile petitions on the 12 Mike Daniels, 19; Earl Ray youths are pending.

Liquor bill held

BOISE (UPI) — A house-approved bill extending a five per cent retailers discount to all liquor purchases by licensed liquor retailers was held in the Senate State Affairs Committee Tuesday.

A move to report the bill to the floor without recommendation failed on a tie 14-14 vote.

Supper set

TWIN FALLS — The Twin Falls Chapter, Order of DeMolay, will hold a pancake supper Saturday from 5:30 to 8 p.m. at the Masonic Temple.

Proceeds will go toward expenses for their trip to the state convocation which will be held in Moscow April 5, 6, 7 and 8. The local chapter is sponsored by Twin Falls Lodge No. 45 AF and AM and Kayler Lodge No. 94 AF and AM.

Tickets can be purchased at the door or by calling 733-8089.

Hailey speaker slated

HAILEY — Recreation assistant for the Sawtooth National Recreation Area, Frank Rowland, will be guest speaker at a Community Environmental Workshop Wednesday evening in Hailey.

Rowland's program will be on "Forest Service management of area forest communities." Project director Kenneth Klineau will also discuss the main mountain forest.

Hailey speaker slated

The session will begin at 7:30 p.m. at the Wood River Junior High School. Sponsored by the Sun Valley Creative Arts Center, the workshops are financed by a Federal Environmental Education Grant.

All interested residents are invited to attend.

Hailey speaker slated

A thought for the day: American philosopher William James said, "Man lives by habit, indeed, but what he lives for is thrills and excitement."

CSI rolls by Wolves 96-61

COEUR D'ALENE — The College of Southern Idaho rolled over the Blue Mountain Community College Wolves 96-61 Monday night to advance to the second round of the region 18 junior college tournament.

The Golden Eagles tonight will play the winner of the North Idaho-Linn-Benton game. The victor in that contest will then advance to the national junior college tournament in Hutchinson, Kan.

CSI dominated play from the start and ran up a 4-0 margin in less than a minute. Rick Sobers and Ron Fryson, hitting from the outside, put the Golden Eagles to a commanding 20-4 edge.

Blue Mountain was unable to get untracked in the early going.

NCAA charges AAU as "outlaw"

WASHINGTON (UPI) — The National Collegiate Athletic Association charged Monday that the Amateur Athletic Union "has played the part of an outlaw" in arranging a US tour by the Soviet basketball team.

David Hivens, president of the AAU, responded that his organization acted properly as the legitimate and only recognized representative of the United States in international amateur basketball.

The two athletic groups clashed before a House education subcommittee investigating their long-standing jurisdictional squabble.

Thomas C. Hansen, NCAA assistant executive director, said the AAU had scheduled the eighty tour by the Soviet basketball team at a time which is to the greatest disadvantage of the American student-athlete and which includes assembly of the best US team.

Hansen told the subcommittee that when the AAU approached the Soviets "it had no authority to conclude arrangements for a competition on behalf of the US."

"The AAU had, and has, absolutely no authority to arrange competition for NCAA member colleges or for other members of the basketball federation."

Under the rules applicable to such arrangements, therefore, the CBS-AAU arranged tour is illegal, and the AAU has played the part of an outlaw.

Hansen further argued that the CBS-AAU tour was arranged for the worst possible time from the point of view of student-athletes, and in a manner rendering student-athletes at NCAA member institutions ineligible for participation.

Hivens, in his testimony, charged the NCAA with refusing to abide by terms of a jurisdictional settlement by an impartial commission appointed by the sports arbitration board, and that the NCAA wrongly believed it "owned" athletes of its affiliated colleges.

AAU executive director Olan Cassell said the NCAA also "chose to subordinate the best interests of our nation to its own interests, whatever they may be."

Hansen, referring to the controversial final seconds victory of the Russian basketball team over the Americans at Munich last year, said CBS-TV and the AAU had billed the Soviet team's American tour "as a rematch in a blatant attempt to cash in on the widely felt dissatisfaction and resentment regarding the conduct and outcome of the Olympic final game between the US and USSR teams."

The advertising for the proposed tour takes on the color of the rankest form of misrepresentation," he said.

Cassell countered by saying the AAU had been authorized to handle the competition by the International Amateur Basketball Federation, the world governing body for the sport.

He said that "protecting student athletes" was not the main concern of the NCAA. "We believe that their main concern is to undermine the authority of the legitimate forces involved here and that the athletes over whom they hold this economic club are very convenient vehicles for accomplishing this end," he added.

Bear tags needed

BOISE (UPI) — The Idaho Fish and Game Department issued a reminder to hunters that a \$2 tag is required for bear hunting except in those units open to year-round hunting.

The \$2 tag is also necessary for persons holding the \$25 nonresident bear hunting license for all units in Idaho.

Game managers also urged that spring bear hunters take a good look to be sure the bear they plan to shoot does not have cubs.

It is unlawful to kill either a cub or a sow with cubs at side as cubs of the year may not survive without the sow.

Wildlife week set

Plans are being readied by thousands of local and state groups across the country for the 35th annual National Wildlife Week, set for March 18-24.

The theme of the 1973 Wildlife Week, sponsored each year by the 3.5 million member National Wildlife Federation and its state affiliates, is Discover Wildlife.

Focus of the week will be on the simple joys that can be found by Americans of all ages in the outdoor, natural world.

The executive vice president of the NWF, Thomas L. Kimball, commented on the theme of the natural world.

Wildlife Week's poster symbol, only through attractive young wood duck shown just magazine pictures.

Homedale squeezes by Vikings 58-54

Valley made 24 out of 68 shots from the field to Homedale's 27 out of 69. Homedale pulled down 38 rebounds to 35 for the Vikings. Valley was led in rebounding by Rocky Hogan with 14. For Homedale, Rick Daygout pulled down 13 rebounds.

Rocky Hogan hit a jumper with 39 seconds remaining to tie the score at 54-54. However, Homedale came back with the final four points on a field goal by Garrett and a pair of free throws by Mike Heyer. The Vikings had rallied from a 37-36 score at the end of the third period.

Homedale took an 18-14 lead in the first quarter and led in the second quarter until Valley took a 29-27 lead at the intermission. Homedale then began to spark offensively in the third quarter and went to the 11-point margin by the close of that quarter.

Valley committed 10 turnovers, compared with Homedale's 12 turnovers. Valley finished the season with a 14-12 mark. Homedale will enter the state competition with a 15-10 season record.

Valley entered the playoff in Mountain Home after being defeated last Friday night by Clinton Falls in the district A-3 championship. Homedale will now fill the eighth spot in the state tournament.

machinery

THURSDAY, MAR. 8

SALE

LOCATED: 3 MILES WEST OF TWIN FALLS, ON HIGHWAY 30 TO CURRY, THEN GO 1/4 MILE SOUTH.

— LUNCH AT CHUCKWAGON, BY FILER GRANGE.

SALE TIME: 11:00 A.M.

TRACTOR

1969 Massey Ferguson 135 gas tractor, front in to 44 inches, has 3 point hitch, and in top condition and ready for the field, has 12 4x28 rubber and 985 hours

TRACTORS AND ACCESSORIES

1969 855 diesel tractor with wide front and custom Ariel cab 15 5x38 rubber 3 point hitch wide front end and power steering 1965 International 806 diesel tractor, good 15 5x38 rubber, power steering, fast hitch, wide front, 2800 hours and a real good unit, 1964 International 706 diesel tractor, 15 5x38 rubber, 3 point hitch, power steering, 111 hours on a rebuilt engine, wide front 44 inch, all in top condition, 1969 Massey Ferguson 135 gas tractor, front in to 44 inches, has 3 point hitch, and in top condition and ready for the field, has 12 4x28 rubber and 985 hours

OTHER GOOD USABLE MACHINERY

Massey Ferguson 6 row 3 bar cultivator with fins and 3 point hitch, Massey Ferguson 4 row corrugator with slides and 3 point hitch, 4 John Deere flex planter units with beat or torn plates all mounted on tool bar and 3 point hitch, Oliver Superior 4 row bean drill with chare and 3 point hitch, International 16 inch tumble plow on rubber, International pul type delivery rake, John Deere No. 3 7 foot mower with ram, Case No. 100 side delivery rake with dual rubber, Chaffin 6 foot ditcher with Jack Wood 3 section harrow with steel drawbar, Rear end 4 row bean cutter with snouts, Pull type renovator, Set of John Deere automatic markers

COMBINES AND BEET HARVESTER

International 101 combine with 10 foot beater in good condition, International No. 80 bean combine in good condition, Farmhand No. 250 2 row beet harvester, mounted tappers, good chain, a good unit and large rubber.

HOUSEHOLD ITEMS

Kenmore portable dishwasher, Westinghouse Electric Range, 4 Oil heaters, one Singlar Oil Heater, Large dayno (blue) green with new upholstery, 3 bar stools, 10 kitchen chairs, newly upholstered, Patio set. Other miscellaneous items

GROUND WORKING AND OTHER EQUIPMENT

Brilliant roller harrow with transport wheels, crow feet and hydraulic ram mount, Everman 10 foot tandem disc almost new front 20 inch blades and hydraulic ram mount, wheel carrier type, Midway 3 section harrow with folding drawbar with 3 point hitch, 3 10 foot semi-mount harrows to mount on Everman or International discs, Midway 16 foot mounted harrow for disc, Best whepper P.T.O. operated 4 row 8 foot cylinder har with 3 point hitch, INC & Oline single bottom plows, land leveler, 8 foot wide, 3 point hitch, Feed ditch cleaner with 3 point hitch, 4 row cultivator with 3 point hitch, 3 Cultivators

MISCELLANEOUS

Cultivator beam, 10 inch disc, 8 can front opening mill cooler, 2 De Laval milkers, buckets, 50 1 inch syphon tubes, 55 gal. can

OWNER: HOWARD MILLS

TRACTORS

Allis Chalmers D-14 tractor, had complete overhaul last spring, wide front, has rock clutch, both hand and foot clutch, all in good condition, IHC Super C tractor, with fast hitch, in good condition, IHC H tractor, good motor and good rubber.

OWNER: RALPH & HAZEL MORRIS

OTHER FARM MACHINERY

Allis Chalmers springer plow 2 bottom 2 way roll over, Case 8 ft. tandem disc, on rubber, has cutaways in front, John Deere 20 hole grain drill, on rubber, step boxes, feeder, attachment, Beet and bean cultivator for Super C tractor, both front and rear, with fast hitch, IHC 7 ft. hang on mower, David Bradley side rake on rubber, 6 ft. Oliver pull type disc, 4 sections of wood harrow, 6 ft. 2 section draw bar, IHC trail plow, 18 in., fast hitch adaptor to 3 P.H., 3 P.H. feed platform, 10 ft. drag leveler, Cultivator, tools, International electric fence, 1/4 and 1/2 H.P. electric motors, Shop grinder, and other miscellaneous items.

"Not bad for over the hill stars"

PORTLAND, Ore. (UPI) — "Not bad for a bunch of over the hill guys," said Bob Seagren Monday of his Portland, Ore., team's debut in the Portland, Ore., State University in Pocatello.

Seagren said reports that the Professional International Track Association circuit would "help retire a bunch of aging athletes don't hold water in face of the facts — three new world records."

It is expected the PITA will start its own record books since the AAI governs amateur sports only.

The PITA moves to Los Angeles March 24 for its second meet and the former Olympians and world record holders on the pro tour complete here March 30.

Seagren won at Pocatello with a time of 1:17.4, his best, in the 100-meter dash.

"I think I can clear 18 feet with no trouble by the time we get to Portland," he said.

In addition to Seagren, the Portland meet will boast Jim Ryan and Kip Kohn as part of the stable of 50 or more pros competing for cash prizes of up to \$500 per win.

Seagren said he doesn't think the new pro tracks tour will sap the potential pool of athletes for Olympic events.

"It might make the Olympic committee take a more realistic viewpoint regarding the financial status of competitors," he said.

"If the tour can attract enough European competitors — and I think it can and will — then the change might come in time for the 1976 Olympics."

Seagren said he will be using his standard pole in the Portland meet, or the stick

banned in Munich at the 1972 Olympics. He said it is "no different" than other poles except it is lighter.

"I think 20 feet can be made using existing poles and materials," he said. "I don't know if I can clear it, but somebody will."

Seagren said his lightweight pole is made of fiberglass.

They've experimented with no materials — fiberglass in combination with carbon fibers. It didn't work — the carbon and fiberglass bond and poles kept coming apart.

Seagren recently picked up more than \$35,000 in the superlat competition in Florida. Against athletes such as Joe Frazier, Elvin Hayes,

Johnny Unitas and Johnny Lee, in addition to Bench, Seagren bested his Seagren, Ryan, 800 and mile, in seven of 10 events. Randy Matson, and part-time including lifting more weight evans, 400 meters.

The inaugural at Pocatello, the Portland PITA meet will include the 60-yard dash, 440, 10,000 fans. Los Angeles has a 800, mile, two-mile, 60-yard dash, track following, and hurdles, pole vault, shotput, Oregon and Portland are noted high jump, long jump, two for track buffs. Turnouts in LA women's events and a special and here will give some clues as to the future of the sport on a World record holders on the professional basis.

Fishing prospects given for Valley

By STU MURRELL
Regional conservation educator
The phone calls have started to come into the Idaho Fish and Game Department with the nice weather, asking about fishing spots.

The special ice fishing season appears to be Salmon Falls Creek Reservoir since it has had a good water supply the past two years and fish have had sufficient food and space to grow rapidly.

This excellent water outlook will continue through 1973 since the Soil Conservation Service's water report indicates a snow pack of 129 per cent on Salmon Falls Creek. This reservoir has a year-round fishing season on it and contains excellent populations of trout, kokanee perch and crappie.

Coho salmon and brown trout have also recently been released in the reservoir. It could stand more; fishing pressure than has occurred in the past. Both bank fishing and trolling are successful methods.

A new regulation this year provided for the six Frank Oster Lakes on Hagerman Refuge to open on March 1. Which will provide additional fishing in the Hagerman Valley. There is a special bag limit of seven pounds and one trout but not to exceed five trout on these waters.

The remainder of the sloughs and Tiley Creek on the refuge will not open until May 26. Other areas that have a year-round season on them are Rolford Canal and Little Wood River upstream from its mouth to Silver Creek including Silver Creek from its mouth upstream to Priest Campground. This campground lies about two miles upstream on Silver Creek from the Highway 93A bridge near Carey. Both of these stream sections contain brown trout in addition to rainbow.

Many spots are available along the Snake River with some of the favorites being Niagara Springs, Crystal Springs, the mouth of the Malad River and downstream from Mindoka Dam. The Rupert and Burley gravel pond areas along Interstate 80N are open year-round.

Thorn Creek and Dog Creek Reservoirs north of Coalinga are both open year-round; however, Thorn Creek Reservoir could be difficult to reach due to snow or mud on the access road.

Steelhead fishing should begin to pick up in the Upper Salmon River area in March and the season extends until March 31 from the mouth of the Middle Fork on the main Salmon upstream to the mouth of the Pahsimeroi and until April 20 from 100 yards upstream from the mouth of the Pahsimeroi to the mouth of Redfish Lake Creek.

Steelhead fishing should begin to pick up in the Upper Salmon River area in March and the season extends until March 31 from the mouth of the Middle Fork on the main Salmon upstream to the mouth of the Pahsimeroi and until April 20 from 100 yards upstream from the mouth of the Pahsimeroi to the mouth of Redfish Lake Creek.

Trapped, tagged
TWENTY Soldier Mountain elk have been live-trapped, tagged and equipped with radio transmitters for electronic tracking during the next year to learn where the animals go, when, how far, where the calving grounds are, and how many return to trap sites next winter. Five traps were operated between Featherville on the South Fork of the Boise River and Big Smoky.

Nampa claims A-1 spot beating Skyline 49-46

Dave McAbee's short jumper provided the decisive points with 1:04 to play and Ted Piekman nailed down the victory with two from the foul line a minute later as Nampa claimed the eighth spot in the state A-1 tournament Monday night by nipping Skyline 49-46 in a special playoff.

Skyline, trailing by five with 4:40 to go, took the lead 46-45 with 3:04 left when Gary Ellis

hit two from the foul line. Skyline pulled a quickie on that one as Street was fouled, went up court to talk for a minute and in the interim Ellis, the six-foot sixth best foul shooter, stepped in.

McAbee hit nine points in the third quarter when Nampa was overcoming a 29-23 Skyline lead. Nampa took the lead for the first time in the second half 49 seconds into the fourth period on two Wayne Markus free

throws. Except for that 46-45 deficit, Nampa led the rest of the way.

Nampa will meet Coeur d'Alene, first district champion, in Thursday's opening round at the tournament.

Hartman denies job offer

KANSAS CITY, Mo. (UPI) — Kansas State basketball coach Jack Hartman issued Monday what he called "an absolute denial" that he has accepted a job as head coach at Oklahoma State, his alma mater.

Monday's Daily Oklahoman, in a story by Frank Boggs, said Hartman was simply waiting until after the NCAA tournament to take the job, which was vacated recently when Sam Aubrey resigned.

Hartman's Kansas State team has locked up the Big Eight championship and will play in the NCAA Midwest regional in Houston March 15-17.

Boggs' story mentioned Hartman, Texas El Paso's Don Haskins and Creighton's Eddie Sutton as potential successors to Aubrey.

"Of those three," wrote Boggs, "Hartman is the one name most often mentioned when folks fairly close to the situation sit around exchanging guesses."

Added Boggs: "He will take the job," said a man whose opinion I trust, but he can't do anything until after the NCAA tournament."

Hartman, contacted at a junior college regional tournament at Hutchinson, Kan., said, "you can call it an absolute denial. I am very disturbed at the continued speculation regarding myself in connection with the job at OSU. I am very happy at Kansas State and I have no intention of leaving at this time."

Hartman's statement was the first that could be construed as taking himself out of the picture. When queried last week, he simply refused comment.

49ers "forgiven," Marquette drops

NEW YORK (UPI) — Coaches are a forgiving group of people.

At least, that is one conclusion an observer could draw by looking at this week's ratings of the United Press International Board of Coaches. Although Long Beach State was "punished" last week with a two-niche drop in the rankings for its intra-conference loss to Los Angeles State, the Forty Niners were "forgiven" and restored to the No. 3 position, behind UCLA and North Carolina State, when they defeated Fresno State and previously fourth-ranked Marquette.

UCLA clinched the Pacific Eight crown and received, as

usual, every first place ballot, topping California, 60-65, and Stanford, 51-45. North Carolina State defeated North Carolina, No. 7 last week, 82-78, and took an easy decision from Wake Forest, 100-77.

Marquette, despite the loss to Long Beach in its only game, dropped only one position to fifth, behind Minnesota, which also fell one place despite Big Ten victories over Northwestern and Purdue.

Providence held sixth, winning its only contest against St. John's (N.Y.); North Carolina remained seventh, edging Duke, 72-70, in addition to its loss to No. 2 N.C. State; and Kansas State held eighth.

Weber St. plays Long Beach on TV

KANSAS CITY, Mo. (UPI) — Because of television, two of Saturday's first-round NCAA tournaments will be played in the afternoon.

NBC will telecast nationally the Long Beach-Weber State game at 1:15 p.m. (MST) from Utah State and the Southwestern Louisiana-Houston contest at 2:10 p.m. (MST) from Wichita State.

Times for Saturday's first-round games, which will propel winners into the four regional tournaments March 16-17:

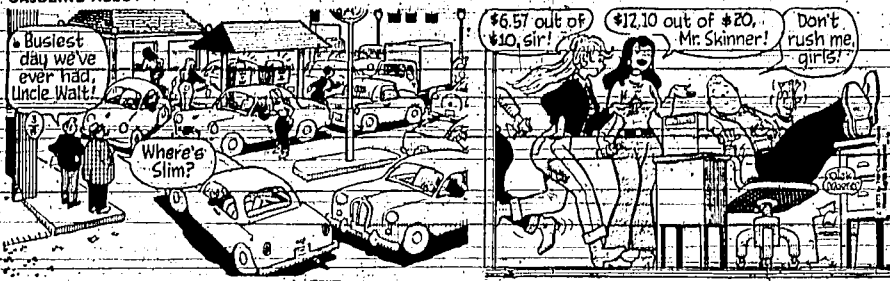

East — Furman vs. Syracuse at Philadelphia, 6 p.m. (MST); Duke vs. St. John's (N.Y.) at

William and Mary, 5:05 p.m. (MST); St. Joseph's (Pa.) vs. Providence at St. John's, 7:05 p.m. (MST).

Midwest — at Dayton, Ohio: Miami (Ohio) vs. Marquette, 5:05 p.m. (MST); Austin Peay vs. Jacksonville, 7:05 p.m. (MST).

Midwest — at Wichita, Kan.: Southwestern Louisiana vs. Houston, 2:10 p.m. (MST); Texas Tech vs. South Carolina, 4:10 p.m. (MST).

—REVOLUTION:

A. Can only report the show business rule of old. If the personality's name appears above the title, said character is a star. If beneath the title, a supporting actor. That was the custom in the glamorous, magnificent, stupendous days. Probably no more.

SCALP HAIR grows fastest on young women between ages 15 and 25, the science boys say. And it grows a little faster in summer than in winter.

WHERE'D WE get the notion that sunflowers turn their faces toward the sun from morning until night? They don't, contend the experts. They don't, they don't!

YOU'VE GOT IT. If you're dreaming of marrying a tall, fair-haired fellow of unusual good looks, you're up against pretty rough odds. They run 13 to one against your getting a six-footer, and better than three to one against his being blond. If you'll settle for a short, stocky, dark-haired character, your chances are greatly improved.

~~FORECAST FOR WEDNESDAY MARCH 7, 1973~~

ARIES (Mar. 21 to Apr. 19) Your ideas are fine but you have to use your energies wisely if they are to become successful in your life. Anything of importance should be thought out in advance before proceeding.

TAUROS (Apr. 20 to May 20) Confide only in trusted advisers concerning secret aims you have. Forget fun until you have problems well handled. Make this a day of great accomplishment. Take it easy tonight.

GEMINI (May 21 to June 21) You are not feeling up to par and may want to ignore good friends, which is a wrong thing to do at this time. Group affairs are fine but do little talking for best results.

MOON CHILDREN (June 22 to July 21) Handle vocational matters in a most efficient way. Don't irritate a higher-up. Make sure you pay an important bill you've been putting off. Don't take chances with your credit.

LEO (July 22 to Aug. 21) You think you have some fine ideas but it's best you study them further before you put them in operation. Take no risks with money. A plan of a newcomer is not for you, so turn it down.

VIRGO (Aug. 22 to Sept. 23) Further analysis of your obligations makes it possible for you to discharge them with efficiency. Find a better way of pleasing mate. Avoid arguments and add to present harmony.

LIBRA (Sept. 23 to Oct. 22) If you don't impose on associates, you can come to a far better understanding, and be more cooperative than in the past. One who opposes you is in an irate mood, so avoid this person.

SCORPIO (Oct. 23 to Nov. 21) Plan your time wisely so that you can handle those important duties ahead with efficiency. Use a new method to improve your health. Do something of a philanthropic nature tonight.

SAGITTARIUS (Nov. 22 to Dec. 21) Taking time off for fun is fine, but don't be extravagant in any way. Plan to use your talents more so that you get better results. Think along constructive lines. Relax tonight.

CAPRICORN (Dec. 22 to Jan. 20) Don't cause friction at home by bringing up old arguments. Strive for more harmony instead. Try to eliminate the cause of any trouble and gain the respect of all. Keep calm.

AQUARIUS (Jan. 21 to Feb. 19) This is not the right day to do whatever you feel will be helpful to associates so wait for a better time. Don't take any chances in travel or in dealing with those in trouble.

PISCES (Feb. 20 to Mar. 20) Instead of getting deeper in debt, be sure to pay whatever bills you have. Obtain the advice of experts for your problematical affairs. A small investment could be successful.

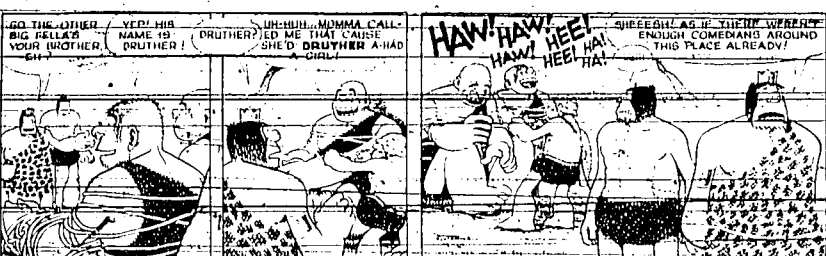

IF YOUR CHILD IS BORN TODAY — he or she will be one of those young people who will want to jump into almost anything without proper preparedness. Teach to plan and to be patient, although it may be a difficult lesson to learn. Give as fine an education as you can afford. Also, teach the importance of the value of the dollar. Spiritual training is a must. Fame is possible here.

✓ "The Stars impel, they do not compel." What you make of your life is largely up to YOU!

Court accepts vote law case

WASHINGTON (UPI) — The Supreme Court today accepted a case challenging a law which barred them from the California election ballot in 1972.

The high court also agreed to consider whether Texas makes it too hard for minority political parties and independent candidates to get on the ballot.

Both the California and the Texas cases were expected to be heard next fall or winter.

The Court did not indicate they would be combined.

Hall's brief said the California election code "has made it virtually impossible for anyone to appear on its general election ballot as an independent candidate for federal office."

Would-be independent candidates were given only 24 days to obtain signatures from at least 5 per cent of the total vote in the previous election.

Hall said, and those signatures could not include persons who voted in the June primary.

"Indeed," the brief said, "no one has ever been able to satisfy the statutory requirements for independent candidacy."

Hall, American Communist Party candidate for president, and his running mate, Jarvis Tyner, sought to run as independents in California after their party was denied a place on the ballot.

But a three-judge U.S. District Court panel last September upheld the constitutionality of the law's restrictions on independent candidates. It said the state had the right to discourage a "laundry list" ballot.

The Texas election laws, also upheld by a three-judge federal panel, were challenged in several suits.

A group of minority parties — the Texas Socialist Workers Party, the Texas New Party, Laurel Dunn, the American Party of Texas, and the Raza Unida Party — challenged requirements for nominating conventions and petitions.

In other actions Monday, the Court:

- Rejected a claim by five men in the Chicago 7 conspiracy case that the federal anti-
- riot statute fosters unconstitutional police state. The five, convicted under the so-called "Rip Brown Act" in February 1970 after a bizarre trial in Chicago, said they needed a Supreme Court interpretation of the law even though they won a new trial. The Justice Department announced last January it will not re-try them.

Research breakthrough may aid drug treatment

BALTIMORE, Md. (UPI) — A major breakthrough that could lead to a safe chemical treatment for heroin and cocaine addiction has been discovered by two researchers at Johns Hopkins University, the National Institute of Mental Health (NIMH) said Monday.

A professor and a graduate student have for the first time identified the areas of the brain where opiate drugs "attach" themselves to produce their "high," or other mental effects such as killing pain, NIMH said.

The discovery will permit rapid testing of "narcotic antagonist" compounds that can occupy the "receptor sites" and block the effects of heroin or cocaine without causing harmful effects, according to the federal scientists.

Methadone, currently the most common heroin substitute, is toxic and at least as addictive as heroin, most experts believe, although it does not generally cause euphoria in experienced users.

The findings by Dr. Solomon Snyder and Ms. Candace B. Pert followed a year of research supported by NIMH.

and were revealed in a news conference at Johns Hopkins.

Dr. William E. Bunney, Jr., director of NIMH's Division of Narcotic Addiction and Drug Abuse, called the discovery "a significant step toward understanding how opiates may work in man. These findings in laboratory work will help speed progress on many fronts."

— Ruled that El Paso Natural Gas Co. must relinquish the former Pacific Northwest Pipeline Co., which it acquired in 1959, to an independent purchaser, the APCO group. The ruling, which ended 15 years of litigation, affirmed a previous Supreme Court divestiture order in 1961 that was designed to restore competition among California natural gas suppliers.

— Ruled that Petersburg, Va. cannot annex adjacent territory unless it takes Negro voting rights into account by changing from an at-large to a ward system of electing its City Council.

Meteoroid impacts made beads

WASHINGTON (UPI) — Volcanic activity. When Apollo 17's astronauts performed detailed analyses made the startling discovery of orange soil on the rim of a U.S. Geological Survey have shown the soil is made of small

orange glass beads, probably formed from lunar rock by ancient meteoroid impact.

Dr. Edwin Roedder of the Geological Survey reported the findings Sunday.

Campaign spending limit hearing set

WASHINGTON (UPI) — A Senate subcommittee begins hearings Wednesday on legislation to set a ceiling on spending by candidates for President, Senate and House in an effort to slow the escalating cost of running for federal office.

The measure sponsored by Sen. John O. Pastore, D-R.I., would revamp the year-old federal election law and also repeal the broadcast industry's equal time provision for presidential and vice presidential candidates.

Preliminary figures indicate candidates for the presidency and the Congress spent more in 1972 than any previous year despite limits in the new law on media advertising.

Under Pastore's bill, federal office candidates would be limited to 25-cents-per-voter, or \$34,910,500 for each presidential ticket, without restriction on how much of the total was spent for broadcast media.

By comparison, President Nixon's re-election campaign cost an estimated \$40 million to \$46 million and Democratic Sen. George McGovern spent about \$31.4 million in his unsuccessful bid for the presidency.

POW makes US flag

CLARK AIR BASE, Philippines (UPI) — Red underwear, a handkerchief, an old sweater, a blanket, a towel and a piece of scrap copper.

These were the materials used by Air Force Lt. Col. John A. Dramesi in a North Vietnamese prison to put together an American flag.

Dramesi waved his handmade flag as he got off a military hospital plane at Clark Air Base Sunday. He was among the 106 U.S. POWs released Sunday by the Communists.

The red in the flag was from a pair of red underwear; the white from a handkerchief sent by his family in Philadelphia; the blue from an old sweater given the men by the North Vietnamese; the gold outline embroidery thread from a yellow blanket; the white stars were hand-embroidered with thread pulled from a towel, and he used a needle made from a piece of copper found in the compound yard.
